## **Briefing Note – Health conference**

It has come to the attention of Health Overview and Scrutiny Committee and the Patient and Public Involvement Forums that the committee structure is not always helpful in developing working arrangements with each other. Both parties consider it is important that they are making the necessary links especially as they will be both involved in assessing the PCTs and NHS Trusts in the near future (Healthcare Commission – Measuring What Matters 2005)

Also through the respective work programmes from Health OSC and PPIF, it has become apparent, that working together would avoid duplication and make best use of resources.

It is being proposed that a Health Conference be held with statutory and voluntary bodies that have an interest in health matters.

The aim of this conference is to establish working arrangements with Warwickshire County Council, Warwickshire Borough and District Councils and the Patient and Public Involvement Forums. The aim is that all parties will work towards the common goal of promoting the health and well being of Warwickshire residents.

Suggested invite list to include representatives from:

Health Overview & Scrutiny Committee,  
WCC Area Committees  
WCC Departments such as Social Services, Education  
Warwickshire's Borough and District Councils  
Patient and Public Involvement Forums  
PCTs and NHS Trusts in Warwickshire  
Coventry City Council Health OSC
