

Warwickshire Health & Wellbeing Board
21 January 2015
Warwickshire Joint Strategic Needs Assessment (JSNA)
Review

Recommendations

That the Warwickshire Health and Wellbeing Board (HWB):

- 1. Consider, note and approve the Warwickshire JSNA Review.**
- 2. Consider, note and approve the Quality of Life in Warwickshire Report 2015 as a key part of the wider, contextual evidence base underpinning the JSNA.**
- 3. Note and comment on the key health and wellbeing issues outlined in the update and ensure they are considered alongside the monitoring of Warwickshire's new Health and Wellbeing Strategy.**
- 4. Champion the delivery of the proposed work programme for the full JSNA 3-year Review.**

1.0 Background

- 1.1 A Joint Strategic Needs Assessment (JSNA) looks at the current and future health and care needs of local populations to inform and guide the planning and commissioning of health, well-being and social care services within a local authority area. A JSNA should consider the needs arising from all the factors that impact on the health and wellbeing of the local population including economic, education, housing and environmental factors.
- 1.2 These are needs that could be met by local authorities, Clinical Commissioning Groups (CCGs), NHS England or a combination of organisations working in partnership. JSNAs are produced by Health and Wellbeing Boards, and are unique to each local area. They should be designed to inform the development of locally produced Joint Health & Wellbeing Strategies.
- 1.3 It is a statutory requirement for upper-tier local authorities to produce a JSNA, although local areas are free to undertake JSNAs in a way best suited to their local circumstances.
- 1.4 In Warwickshire, the evidence exploring these macro-level issues is highlighted annually in our Quality of Life Report. This forms a key part of the County's wider, contextual evidence base for strategic decision-making and is also a fundamental component of our JSNA.

Purpose

- 1.5 The purpose of Warwickshire’s JSNA Review is to establish a shared, evidence-based consensus on the key local priorities across health and social care.
- 1.6 The needs of our population are complex, wide-ranging and varied. In order to focus on the areas of greatest need, Warwickshire’s health and wellbeing priorities have been determined through the JSNA prioritisation process.
- 1.7 Every three years, we review the selection of priorities to ensure our JSNA is focused on the most pertinent health and wellbeing issues facing the local population. This involves analysing and reviewing all the latest data and evidence to highlight the most significant health and wellbeing issues in Warwickshire, both now and for the future.
- 1.8 The JSNA Review 2014/15 forms the first report in the 3-year Warwickshire JSNA cycle. Evidence supporting the priorities set during the Review process will be updated in the first Annual Update 2015/16 and second Annual Update 2016/17.
- 1.9 This full review of Warwickshire’s JSNA priority topics has been used by the Health and Wellbeing Board as the underlying evidence base to inform the development of its new 2014-2018 Joint Health and Wellbeing Strategy.

Figure 1: Warwickshire’s JSNA ‘Cycle’ and Health & Wellbeing Strategy Alignment

- 1.10 Due to the complex, multi-faceted nature of health and wellbeing, a huge number of

different issues required consideration as potential priority topics. In order to focus on the areas of 'greatest' need, a more robust, transparent and inclusive means of determining the County's health and wellbeing priorities has been developed. Over the past few months, this has involved the use of a prioritisation matrix and a series of workshops with partners in an attempt to reach a consensus on the key areas of focus.

1.11 This JSNA Review is the culmination of the prioritisation process and this summary document outlines the Warwickshire population's health and wellbeing priorities.

What are Warwickshire's JSNA Priorities?

1.12 The outcome of the prioritisation process highlighted the following as key areas of focus:

Vulnerable Young People	<ul style="list-style-type: none">• Looked After Children• Educational Attainment of Disadvantaged Children• Vulnerable Young People
Mental Wellbeing	<ul style="list-style-type: none">• Mental Health Adults & Children• Dementia
Long-Term Conditions	<ul style="list-style-type: none">• Cancer• Cardiovascular Disease
Physical Wellbeing	<ul style="list-style-type: none">• Weight Management• Smoking/Smoking in Pregnancy• Substance Misuse & Alcohol
Carers	<ul style="list-style-type: none">• Young Carers• Adult Carers

3.2 For each of these individual priorities, a summary of the evidence used during the prioritisation process is presented in the Review document.

4.0 Next Steps

4.1 This JSNA Review also provides the basis for a more detailed and ongoing programme of work, which incorporates specific needs assessments on each of the aforementioned identified priority topics. These priorities constitute the three-year

JSNA work programme, and the delivery of the associated needs assessments will be led by the JSNA Commissioning Group.
