

## Health and Wellbeing Board 1<sup>st</sup> May 2019

### Feedback from the Place Forum on 6<sup>th</sup> March 2019

#### Recommendation

The Health and Wellbeing Board is asked to:

1. Note the outcomes of the Place Forum meeting held on 6<sup>th</sup> March;
2. Endorse use of the Place Forum Outcomes Framework for oversight of performance across the system and to mobilise action by partners to address identified challenges; and
3. Note the outline agenda items for the Place Forum on 11<sup>th</sup> June.

#### 1.0 Key Issues

- 1.1 The Warwickshire and Coventry Health and Wellbeing Boards met as the Place Forum on 6<sup>th</sup> March 2019 in Northgate House, Warwick. This was the fifth joint meeting, again with good attendance by over 40 members.
- 1.2 The main aims of the session were to:
  - Review the impact to date of the Year of Wellbeing;
  - Galvanise commitment and action by partners around the Thrive to Work programme as part of the workforce wellbeing theme of Year of Wellbeing;
  - Adopt the revised Place Forum outcome framework for oversight of direction of travel against agreed system outcomes;
  - Engage members in development of plans around an Integrated Care System for Coventry and Warwickshire and local implementation of the NHS Long Term Plan; and
  - To update each other on changes affecting the Place Forum including the CQC local system review in Coventry, Transforming Care, and moving towards an Integrated Care System; and
  - Update each other on progress with the place-based needs assessments (JSNAs) and opportunities to promote wellbeing as part of Carers Week.
- 1.3 It was acknowledged at the meeting that the collaboration between the Health and Wellbeing Boards has reached a level of maturity with some key products now in place, and it has reached a watershed in its development. There is a real opportunity for the Place Forum to play a key role in the future and review its position in light of the NHS Long Term Plan and refresh of the STP Plan by autumn 2019.

#### 1.4 At the meeting, the Place Forum:

- Received an update on the Year of Wellbeing and encouraged members to increase its impact through promoting on websites, encouraging staff to make a pledge using #onething or onething.warwickshire.gov.uk, and displaying banners and flags (which were provided at the meeting). A Year of Wellbeing Logic Model, to form the basis of measuring the impact of the Year, was also shared with members.
- Supported the approach taken in the updated outcome framework (Appendix 1) and the application to the four 'places' (Coventry, Rugby, North Warwickshire and South Warwickshire), and agreed that the indicators around 'effective services' were heavily focused on hospitals and should include a measure about people supported to live at home.
- Received a presentation from Sean Russell of West Midlands Combined Authority about the Thrive at Work – Workplace Wellbeing programme and undertook a table exercise to encourage further actions and commitment. Members recognised the importance of workplace wellbeing and the opportunities in this area, particularly around mental health.
- Engaged in interactive updates on the place-based JSNA, Carers Week, Integrated Care System and NHS Long Term Plan. The feedback will be taken forward in future plans. The Forum recognised the value of sharing updates and gathering feedback in a system-wide approach, and the need for a greater focus on prevention and early intervention in future plans.

#### 1.5 The following actions were agreed as part of the Place Plan (see Appendix 2

- Continue to lead and support the Year of Wellbeing (for further information see [www.yearofwellbeing.org.uk](http://www.yearofwellbeing.org.uk));
- Further develop the outcome framework for oversight of performance across the system and to mobilise actions by partners to address identified challenges;
- Consider the opportunities to further improve workplace wellbeing, including applying the Thrive at Work framework;
- Form a sub-group to explore synergies between Thrive at Work and the STP mental health and community resilience strategy;
- Health and Wellbeing Board Chairs to meet Chris Ham to explore the future role of the Place Forum; and
- Continue to update each other on changes which impact on the work of the Place Forum, including ICS and the STP refresh.

## 2.0 Timescales associated with the decision and next steps

#### 2.1 The focus of partner activity up to the next meeting includes the following:

- Promoting workforce wellbeing within our organisations;
- Continuing to support and deliver the Year of Wellbeing and monitor impact;
- Further refine the outcome framework and use it to monitor direction of travel against the system outcomes;

- Carrying out qualitative evaluation of the impact of the Place Forum to complement the outcome framework and Year of Wellbeing Logic Model;
- Explore the role of the Place Forum in the future, including the consideration of any financial impact.

2.2 At present, it is intended that the Place Forum on 11th June will include:

- A session on the social isolation theme of the Year of Wellbeing, to include lessons from the evaluation of community capacity pilots in Coventry;
- Integrated Care System governance;
- Engagement on ICS strategic framework development; and
- Updates and briefings on other key developments impacting on the Place Forum.

## Background Papers

None.
