| Total                     | 100.0%             |

#### 2. Objectives

The overall objectives of the fund are twofold:

Ensure that funds are available to pay member pensions when they are due, delivered through effective forecasting of long term liabilities, determination and collection of appropriate contributions, and generation of an appropriate risk adjusted return on the fund's investments.

Ensure that pensions are paid accurately and on time when they are due, delivered through an effective benefits administration service.

#### 3. Context

Demand on the administrative team has increased over time with an increasing number of employing organisations, an increasing number of employers with higher risk covenants, increasing expectations around governance requirements, and as a result of the scheme becoming more complex since the change to the career average method.

A challenge for the fund will be to ensure that capacity is appropriate to meet this demand in the short term and a review of capacity will be undertaken to this end.

Another line of action will be to seek to reduce costs, improve compliance, and improve the experience for employers and employees through automation.

iConnect is a system that facilitates the automation of many of the tasks around employer data transfer and validation. Member self-service is a way of automating some interfaces with members and improving accessibility of information. Both of these opportunities will be looked at in depth during 2019/20.

The pooling of pension funds has been in progress for some time and in 2018/19 the Warwickshire Pension Fund invested in its first pooled fund with the Border to Coast Pension Partnership. There will be further pooling opportunities in 2019/20. The Fund will need to make significant decisions around each opportunity and as more funds transfer the task of beginning to monitor the delivery of the expected benefits will arise.

#### 4. Actions

Annex 1 sets out a summary of the actions planned for the coming year. Actions are grouped into the following categories:

- Administration
- Actuarial
- Investment
- Governance

### 5. Forward Planning

A forward plan of future agenda items will be maintained for the Pension Fund Investment Sub Committee and the Local Pension Board. Copies of the current forward plans are set out at Annex 2 and 3.
