Initially publish that this is just for individual settee, bed frame or mattress

NWBC	£23.50 for up to six items
NBBC	1 item £8.30
RBC	Up to three items - £25
WDC	3 items £35
SDC	£38.00 3 items

Supporting Narrative:

haulage up-lift and other contracts.

For the general waste land fill tax from the previous values has been taken off, 4.2% to the remainder has then been applied and then the new LFT of £88.95 has been added on.

For wood, it was decided that no change was appropriate, as last year there was a bigger margin on wood for the service than any other material. Considering that and the fact that the gate fee is going down this year, it was felt that it would be hard to justify the typical 4.2% increase.

For the pay by item prices the charge will be £12.00 per item of large furniture for the non weighbridge sites. That assumes that none of a mattress, settee or bed base would weigh more than 50kg. The weighbridge rate for general waste up to 100kg is £23.34, so rounding half of that is £12.00.

As for the PD and HL pay by weight values, most of these should stay the same as we don't pay for disposal or haulage. The exceptions being gas bottles and tyres, up to £7.00. I have put £58.00 for commercial fridges and freezers, up from £55.00 which is enough to cover the costs.
