

**Portfolio Holder Decision to be taken by the  
Portfolio Holder for Transport & Planning  
on or after 19 August 2016.**

**Warwick District Council  
Off-Street Parking Places Order 2016**

**Recommendation**

That the Portfolio Holder for Transport and Planning consents to the making of the Warwick District Council Off-Street Parking Places Order 2016.

**1.0 Key Issues**

- 1.1 Warwick District Council (WDC) is proposing to introduce changes to its Off-Street Parking Places Order which will result in amendments to the existing Pay & Display car parking facilities in all car parks operated and maintained by WDC.
- 1.2 The consent of the County Council is required under section 39 of the Road Traffic Regulation Act 1984. By virtue of section 32 of that Act, off-street car parks are provided for the purpose of relieving or preventing congestion. When deciding whether to grant consent, consideration should be given to the potential impacts of a proposed order on the provision, operation and use of on and off street parking provision elsewhere in the area as well as any likely impacts on highway safety and traffic management and any other material considerations.

**2.0 Proposals**

- 2.1 WDC is proposing to make amendments to tariffs in its car parks in Leamington, Warwick and Kenilworth. **Appendix D** shows the existing tariffs with **Appendix E** proposed tariffs
- 2.2 **Appendix A** shows the Executive Report produced by the Warwick District Parking Manager for the WDC Executive Committee. **Appendix B** shows the notice produced by WDC. **Appendix C** shows the draft off-street parking order document.

**3.0 Other Considerations**

- 3.1 Warwickshire County Council receive complaints about commuter parking from residential areas close to centres in Warwick District. There is an existing

problem with the level of parking in streets outside the town centres, higher charges and the charging for parking on Sundays may encourage more out-of-centre parking. Impacts cannot be predicted that would be sufficient to justify a recommendation of a refusal of consent. It is anticipated that any increase in on-street parking demand can be managed through WCC's existing procedure when dealing with requests for new or amendments to Traffic Regulation Orders. It is not anticipated that the increase in charges will impact on highway safety or traffic management.

## 4.0 Financial Implications

- 4.1 There are no direct financial implications for Warwickshire County Council arising from WDC's proposals.

## 5.0 Timescales associated with the decision and next steps

- 5.1 Once a decision has been made by the Portfolio Holder the response will be sent via email.

## **1. Summary**

- 1.1) The Executive Committee in September 2015 agreed to increase to car park pay and display tariffs for financial year 16/17. It was estimated that these changes would generate additional income of £200k and contribute to fit for the future and essential repairs to multi-storey car parks. However, at full Council in November the approval of car park fees and charges was delayed until January until consultation with local stakeholders had been concluded.
- 1.2) Consultation has now been completed and officers have been unable to gain support for the lower band removal. Serious concern has been raised by all groups during this consultation with the message that "the loss of choice to customers will detrimentally affect businesses within the three towns".
- 1.3) As car park charges have been not increased in the last two years and with a clear need to invest in the multi-storey car parks, it is still necessary raise additional revenue from the car parks whilst appreciating the parking needs associated with each town.
- 1.4) Officers have again looked at the options for raising fees and charges in car parks. The full details of the revised option is included in section 8.4, the main amendment to the proposal is introduce a minimum stay of 30 minutes in most car parks. This is to mitigate the concerns from local groups but has a lower estimated income return and results in an £170k increase of estimated income for 16/17 rather than £200k.

## **2. Recommendation**

- 2.1. The Executive Committee agree to the revised increase to car park fees and charges as detailed in appendix 1.
- 2.2. The Executive Committee agree to delegated authority to the Head of Neighbourhood Services as detailed in section 8.7.

## **3. Reasons for the Recommendation**

- 3.1 The Council is required to update its Fees and Charges in order that the impact of any changes can be fed into the setting of the budget for 2016/17. Discretionary Fees and Charges for the forthcoming calendar year have to be approved by Members.
- 3.2 In the current financial climate, it is important that the Council maximises income and therefore minimises the forecast future deficit.
- 3.3 Local Groups have generally supported the increase to all day parking charges and the revision to lower band tariff charges is a direct result of the consultation process.

## **4. Policy Framework**

- 4.1 Fit for the future, supporting the vitality and viability of town centres.
- 4.2 Fit for the Future, ensuring that the Council achieves the required savings to enable it to set a balanced budget whilst maintaining service provision.

## 5. Budgetary Framework

5.1. There are three proposed elements to generate the £170k for this year.

5.2. Budget Estimate

	2015/16 £ Budget	2016/17 £ Estimate	% Variation
Off-Street Charges	£2,286,000	£2,456,000	+7.5
Season Ticket Income	£215,000	£215,000	+0
Penalty Charge Notices	£95,000	£95,000	+0
Total Income	2,596,000	2,766,000	+6.5

5.3. Car park income is projected to increase by £90,000 more than the 3% increase included in the Financial Strategy. Of this increase £50,000 had been allowed for within the SCS/FFF report to Executive earlier this month. This additional £40,000 income will be needed towards funding the works needed to car parks, which is currently being considered and will be subject to a future report.

## 6. Risks

- 6.1. Increasing prices could deter usage where the take up is discretionary. Customers may choose to use the Service less frequently or use an alternative supplier where one is available.
- 6.2. If further objections are received, contract services will seek to negotiate the withdrawal of the objection, dependent on the amount and type of objection received a report to the Executive Committee may be required.

## 7. Alternative Option(s) considered

7.1 Remove the lower band charges from the Long Stay car parks. This would mean that minimum stay in these car parks would be 1 hour in Kenilworth and 2 hours in Warwick and Leamington Spa. The estimated increase to the pay and display budget from the proposal is circa £80k. This option has been discounted due to the serious concern raised by all groups during this consultation with the message that "the loss of choice to customers will detrimentally affect businesses within the three towns".

## 8. Background

- 8.1. The provision of off-street car parking is an important service that Warwick District Council provides as it supports residents, town centre businesses and tourism.
- 8.2. Due to the need to invest substantial funds in maintaining and improving the car park stock and continued financial restraint by Central Government upon

Local Authorities. There is a requirement for Warwick District to increase the income derived from its assets. Car park charges have been not increased over the last two years and these proposed charges take in to account the need to raise additional revenue whilst taking in to account the parking needs associated with each town.

- 8.3. This financial year Warwick District Council is proposing to increase pay and display tariffs. The proposal is to generate additional income of £170k from the car parks to contribute to essential repairs to the multi-storeys.
- 8.4. There are three proposed elements to generate the £170k, two of which require increases.
  - 8.4.1 An increase to the pay and display budget of £35k will be derived from natural growth in car park usage.
  - 8.4.2 Remove the lower band charges of up to 30 minutes in most car parks. This would mean removing the 20p - 12 minutes charge so the minimum stay would be 30 minutes in Warwick and Leamington Spa. Introducing the Linear charge of 10p for 12 minutes into Kenilworth with a 30p - 36 minutes minimum stay. The estimated increase to the pay and display budget from the proposal is circa £50k.
  - 8.4.3 Increase the all-day parking charge in all of the Long Stay car parks across the District by £0.50. The estimated increase to the pay and display budget from the proposal is circa £85k.
- 8.5. Linear Charge - The Linear charge means progressing from one charge to another in a series of incremental time steps. Where there is a minimum stay of 30 minutes no pay and display tickets can be purchased for amounts below this tariff vend. Where the linear charge is 10p for 6 minutes the minimum vend for 30 minutes will be 50p subsequent additional coins will add to the expiry time of 6 minutes for every 10p inserted.
- 8.6. The summary of new charges in section 8.8 gives an indication of the tariff structure but it is not the full list of tariffs available.
- 8.7. Delegated Authority - The Head of Neighbourhood Services has clear delegated authority to implement fees and charge as highlighted in Appendix 1. As part of this delegation, the Head of Neighbourhood also has authority to run promotions that generate additional income for the Council.
