**Lead Member/
Portfolio Holder:** Councillor S Beese

Summary

This report sets out the assessment of the Alcester Town Plan. Alcester Town Council adopted the Plan on 5 February 2008.

Recommendation

- (1) That the Town Plan is adopted as a local information source to offer advice to the relevant departments of Stratford-on-Avon District Council.**
 - (2) That the Town Plan is adopted as a material consideration in processing planning applications, in accordance with Policy COM.1 of the Local Plan Review.**
 - (3) That the Town Plan steering group, Town Council and the residents of Alcester, Kinwarton, and Arrow with Weethley parishes be commended for preparing their Town Plan and that they are encouraged to implement and review their Action Plan.**
-

1 Background/Information

- 1.1 Town and Parish Plans are community-led projects identifying and surveying the assets, needs, opportunities, problems and solutions of a community. Through 'capacity' and 'consensus building', Parish Plans provide communities with a framework to take stock of the present and to plan for the future.
 - 1.2 The momentum for Parish Plans is continually increasing, with many of the communities in the district having completed or in the process of undertaking detailed Parish Plans or Appraisals with associated recommendations and Action Plans. Further background information on the process is included in Appendix 5.
 - 1.3 **Background to the submitted Alcester Town Plan**
 - 1.3.1 At the request of the Alcester Town Council, a steering group was set up in Autumn 2005 to assist in the development of a new Town Plan to cover the parishes of Alcester, Kinwarton, and Arrow with Weethley. The Steering Group was formed following invitations to the other Parish Councils, Alcester clubs, schools, local businesses and churches. The Alcester Chronicle and Alcester Town website also ran an article and individuals responded. The Plan was funded by a Stratford District Council Parish Plan preparation grant, funding from the Town Council, and contributions in kind from many volunteers. The Town Council Newsletter and notices at community meeting places were used to report back on progress.
-

- 1.3.2 Initial information was gathered at the launch of the Town Plan process at the Annual Street Market with 64 responses received. Local youth leaders, helpers with organisations for the elderly, a local pupil and local employers also gave their views on major issues facing Alcester. This informed the design of a questionnaire sent to all households in the 3 parishes, and a Business questionnaire sent to all local employers.
- 1.3.3 The questionnaire was delivered to all 2,663 households in the 3 parishes and 721 completed questionnaires were returned, giving a response rate of 27% which is statistically sound for a community of this size. 28 responses were also received to the business survey.
- 1.3.4 The responses were analysed by an external consultant and a report picking out key issues was produced, with the full analysis attached as an appendix. The Town Plan steering group used this report to seek the views of key partner organisations including WCC, SDC, the police and local community groups. Following these consultations a draft Action Plan was drawn up to address the issues identified.
- 1.3.5 The draft Town Plan and Action Plan were presented at a public exhibition in January 2008 with Town Council representatives available to answer questions. The event was publicised in the local papers, on noticeboards and on the Alcester town website. 30 people attended during the day though no feedback forms were completed. The exhibition was then moved to Globe House for a week, with copies of the draft Plan and comments forms available.
- 1.3.6 The Town Council adopted the Town Plan on 5 February 2008. The Town Council has recently re-organised its structure to create committees formally responsible for different areas, so each item on the adopted Action Plan will be a regular item on the relevant Committee's agenda. Sub-committees and Champions from both the Town Council and the community will be adopted for more pressing issues, reporting back to the committees.

1.4 **Alcester Town Plan findings**

- 1.4.1 The findings of the Town Plan, which have informed the Action Plan, cover:

- Essential Services
- Community
- Economy
- Environment
- Parking, traffic and footpaths.

The Town Plan has been prepared employing a range of community participation techniques including questionnaire surveys, public forums and a transparent process of reporting back to the community on progress. The process has generated a range of statistical and qualitative data that has informed the Action Plan and is a useful information source.

- 1.4.2 Suggested response: Endorse – that the findings of the Alcester Town Plan be endorsed as a true representation of the topics addressed by the Town Plan questionnaire.

1.5 **Alcester Town Action Plan**

- 1.5.1 Analysis and responses to the Action Plan are provided in Appendix 5, and the following analysis and comments should be read in conjunction with the Alcester Town Action Plan.
- 1.5.2 The policy position of the Stratford District Local Plan Review is generally supportive of the Action Plan points relating to planning, the environment and land use. The Stratford District Council Planning Service is currently

working on the early stages of a new Core Strategy which will set out a broad vision for planning and development in the district for the next 20 years. The Town Plan contains useful information that will be taken into account in the preparation process. The Stratford District Council Planning Policy team met the Alcester Town Council at the beginning of this process and intends to return to discuss issues at each stage.

- 1.5.3 The priority projects identified by the Vision for Alcester will help address Town Plan action points concerning youth facilities and tourism. Stratford District Council is able to take action on several other issues identified in the Town Plan, through measures including the SDC Play Strategy, Alcester Drainage Forum, and tailored transport schemes. The commitment to take forward delivery of housing to meet local needs is welcomed, and the District Housing Enabler and Stratford District Council Housing Services will work with the Town Council and other partners.
- 1.5.4 Some of the actions have already been progressed by Alcester Town Council, for example in establishing communication with the Police through Alcester PACT.

2 Options available to the Committee

- 2.1 A) Adopt the Town Plan fully: This is a good, well-prepared Town Plan that would be a valuable local information source and material consideration.
- 2.2 B) Adopt parts of the Town Plan: If there are any concerns with certain aspects of the Town Plan, this option would allow Stratford District Council to use selected aspects of the Plan in its decision making and as a local information source. No reasons have so far been identified to make this option necessary.
- 2.3 C) Not adopt the Town Plan: Stratford District Council would miss the opportunity to adopt a useful source of local information, and a material consideration to aid planning decision-making.

3 Members' Comments

- 3.1 Cllr Bowring gave the following comment: "The Plan is a high quality document, and I'm pleased that none of the recommended actions are 'not supported'.

4 Implications of the proposal

4.1 *Legal/Human Rights Implications*

- 4.1.1 If adopted, the Town Plan will become a material consideration to be taken into account when determining planning applications. The Plan does not conflict with Stratford District Council's policies.

4.2 *Financial*

- 4.2.1 Projects developed through this Town Plan may need funding to take them forward and the recommendations contained in this report should be contained within existing budgets. The District Council operates a Community Grants Scheme aimed at funding these types of projects, and the Community Grants team may be able to help search for appropriate funding sources. It is hoped that the Town Council and local residents will consider and pursue funding in order to develop their identified action points.

4.3 *Environmental*

- 4.3.1 Many of the actions within this Town Plan aim to increase the sustainability of life within the town by reducing the need to travel to access activities and services.

4.4 Corporate Strategy

- 4.4.1 The Town Plan is a useful source of information about local community perception of their locality. The Stratford District Community Plan and the Stratford District Council Corporate Strategy support the range of topic areas and policies in the Action Plan. The Town Plan also complements and helps move forward the District Council's Agenda 21.

4.5 Equality Impact Assessment

- 4.5.1 The consultation for the Plan provided everyone within the community with an opportunity to comment.

5 Risk assessment

- 5.1 The actions recommended within this report are to commend those involved in the preparation of the Town Plan, adopt the Town Plan as a local information source and adopt it as a material consideration. There are no identified major risks associated with these actions.
- 5.2 Choosing to not adopt the Town Plan would risk losing the chance to adopt a valuable source of local information and a useful material consideration to aid planning decision-making.

6 Conclusion

- 6.1 The Town Plan Steering Group, the Town Council and residents of Alcester, Kinwarton, and Arrow with Weethley should be commended and congratulated on completing their Town Plan, and are encouraged by Stratford District Council to implement and periodically review the Action Plan.
- 6.2 The Alcester Town Plan is a good example of how a community can prepare a Plan that is both a good source of local information and provides a sound basis through the Action Plan to address the needs and aspirations of the community.

Guidance for the Assessment of Parish/Town Plans

- 1.1 In assessing Parish Plans, the following considerations should be taken into account:

Evidence and extent of research work to justify conclusions.
Evidence and extent of analysis related to conclusions.
Public involvement and endorsement at local level.
Level of implementation available to District Council services, (e.g. the District Council Planning Authority, Leisure and Arts etc.).
Conformity with District Council's policies, (e.g. Planning policies etc.).

- 1.2 The above five criteria will enable the production of recommendations regarding the acceptance of each of the Parish Plan's detailed conclusions and Action Points.

- 1.3 A response to each of the detailed conclusions and Action Points will be one of the following:

(A) ENDORSE

The specific recommendation will be accepted and taken into account on the decision making of the District Council. (For example, "Small scale development with a 'craft' emphasis should be looked at sympathetically").

(B) ACTION

The specific recommendation will be accepted in principle and, subject to financial, procedural and legal constraints, implemented by or with the support of the District Council. (For example, "A social housing scheme of ten units on land next to the Green should be provided").

(C) INVESTIGATE

Further information to be obtained by the Parish/Town Council or other agency may be required in order that the District Council may establish if the specific recommendation can be supported. (For example, "An existing Conservation Area should be extended").

(D) SUPPORT

The specific recommendation relates to a matter which is not the responsibility of the District Council. However, the proposal is supported and will be forwarded to the appropriate authority. (For example, "Traffic calming measures are required and the County Highway Authority should prepare a scheme").

(E) NOT SUPPORTED

The specific recommendation relates to a matter which is in contrary to the policy of the District Council or is beyond the powers of the authority or that insufficient and/or unsatisfactory information has been submitted to substantiate their commendation. (For example, "No development of any kind should take place within the settlement").

This page has been left intentionally blank

Further Background Information

- 2.1. Communities produce Parish Plans for a number of reasons:
 - To increase the awareness of community issues, foster community spirit and encourage a sense of pride;
 - To act as a strong basis for local action (the Action Plan);
 - To collectively represent the views of residents, to positively influence others to the benefit of the community.
- 2.2. In the 1980s the concept and practice of Village Appraisals first emanated nationally from the Rural Development Commission in conjunction with the Countryside Commission.
- 2.3. Nationally, Parish Plans have a role to play within the 'modernising Local Government' agenda, for example, shaping local services, public participation, decision-making and greater democratic legitimacy.
- 2.4. One of the aims within Chapter 12 of the Rural White Paper (Our Countryside: the future – A fair deal for rural England) includes involving people living in rural areas in developing their community, safeguarding its valued features and shaping the decisions that affect them – developing a vision for the future. Parish Plans are a recognised method of achieving this aim.
- 2.5. In line with guidance from the Countryside Agency issued in August 2000 ('Planning tomorrow's countryside', advice to local planning authorities, government and developers on how the planning system should operate and evolve), Parish Plans are a recognised community planning method to help achieve key objectives. In March 2003 the Countryside Agency produced detailed guidance for parish and town councils on the preparation of Parish and Town Plans.
- 2.6. Policy RA3 in the Warwickshire Structure Plan 1996-2011 encourages local planning authorities to use 'Appraisals' when establishing the views of local communities and when identifying local housing and industrial development need.
- 2.7. Stratford-on-Avon District Council is committed to the encouragement of Parish Plans as a means of identifying local issues and will respond to them positively. Much faith has been placed by the Government, the County Council and the District Council on local appraisals and their role in assisting the formulation of strategic policy.
- 2.8. Parish Plans can now play a broader role within the production of the statutory Community Plan for Stratford District.
- 2.9. The recommendations and Action Plans can both inform and help deliver the Rural Strategy for the Stratford-on-Avon District.
- 2.10. Policy COM.1 of the Stratford-on-Avon District Local Plan Review 2006 states:

"The views of the local community as expressed preferably in a Parish Plan (or equivalent) or in its absence an alternative source of reliable evidence, will be fully taken into account in the planning process. In particular they will be used:

 - To help assess the merits of schemes promoted by communities to meet needs which they have identified;
 - As a material consideration in the determination of planning applications and to assist in identifying the scope and nature of associated planning obligations which might be sought; and

- To identify opportunities for environmental and other forms of enhancement.

In the case of Main Rural Centres and Local Centre Villages only, as defined in Policy STR1, small scale schemes which meet housing (particularly affordable housing) and employment needs will be encouraged in this way...”

- 2.11. Nationally, Parish Plans are broad, holistic documents addressing local issues at a local level. Whilst in this District 'appraisals' have had a close association with planning, they are no longer 'planning-led'. Parish Plans address both planning and non-planning related matters and this is reflected in their assessment at Committee.
- 2.12. Parish Plans can and do act as a tool to assist in giving many of the services provided by the District Council greater community focus. Vice versa, many of the services provided by the District Council can and do feed into the Parish Plan process creating more informed Action Plans.

Summary of key action points

Abbreviations SDC= Stratford District Council
 WCC= Warwickshire County Council
 PACT= The 'Partners and Communities Together' initiative which provides a forum for local people to raise issues with the police and assist in local problem solving.

Parish Plan Action	SDC Proposed Response
Essential Services - Police	
Police Station not open 24hrs per day: Raise with Police through PACT to provide a better communication facility.	Support – the Community Plan seeks to reduce crime and the fear of crime. The community has already started addressing these actions through the local PACT group.
Insufficient police presence in the town: Raise with Police/PACT to improve confidence. Continue to support Neighbourhood Watch scheme.	
Anti-social behaviour: improve police presence and surveillance facility.	
Poor transport provision to hospitals: raise with PCT/volunteer groups.	Support and action - Residents may be interested in the Volunteer Centre's Medical Journeys schemes which help people with transport needs. SDC is a partner in the schemes. We can supply the Town Council with an article advertising the schemes for inclusion in their newsletter. For further information phone Clarissa Roberts on 01789 262886. The Community Plan aims to support individuals by increasing the number of people using tailored transport schemes.
Flooding and drainage problems: Refer problems to the SDC Drainage Forum and Community Resilience.	Action and support – SDC Environment Services has established a Drainage Forum for Alcester bringing partners together to draw up a Flood Recovery Plan. This is identifying factors contributing to the floods last summer and generating an action plan of prioritised actions. The Town Council will be an important source of information for this. Decisions over installation of physical flood defences are taken by the Environment Agency.
Essential Services – waste and	

Parish Plan Action	SDC Proposed Response
recycling	
Insufficient recycling facilities in the town: identify possible sites and press SDC for collection.	Action – From August 08 the SDC will be operating a new waste service providing doorstep collection of all recycling including plastic, cardboard and green/food waste. SDC will welcome feedback once the new scheme is established.
Essential Services – health	
Problems with access to doctors: raise with local doctors. Problem with access to hospitals: raise with PCT.	Support – these action points can be supported. It is suggested that the Phillis service may help to address the low levels of satisfaction with home help identified by the Town Plan. This is a free WCC service which aims to assess what sort of support is needed for an older person and then, working with partners, identify the services to best help them. For more information contact Denise Dewis, Team Manager, on 01926 731142.
Essential Services - Education	
Adult education should be improved: establish what is needed and raise with WCC - Set up local community steering group.	Support – the action point can be supported as the Community Plan seeks to increase the number of adults taking part in learning activities. The Adult and Community Learning Service at WCC are supportive of further research by the community to inform future provision. It is suggested that the Town Council/community steering group discuss with Julia Wakefield, Adult Learning Area Manager for South Warwickshire, before undertaking any further survey work in order to make the results as useful as possible (tel 01926 413608). A Developer Worker within her team may be able to provide support to the group. The Service also intends to increase publicity of existing courses in Alcester through a brochure and website for the next academic year.
After school clubs and holiday play schemes should be improved: raise with WCC and providers. Contact Vision for Alcester re SDC new play strategy.	Action – SDC's Play Strategy will result in the new provision of activities after school hours in 12 settlements including Alcester. The Strategy will also provide holiday play schemes.

Parish Plan Action	SDC Proposed Response
Essential Services – Community	
Facilities for 17-25 age group poor: raise with 'Vision for Alcester' and with providers. Urgent youth club provision needed and is being addressed by the Multi Agency Task Group (reps from Alcester and Studley working with Youth Directorate WCC) with projects such as the Alcester Youth shelter.	Action - A priority for Vision for Alcester (supported by SDC funding and staff resources) is the Conway Fields Recreation project which will provide improved facilities for youths.
Facilities for up to 16 age group poor: raise with 'Vision for Alcester' and with providers.	Action - A priority for Vision for Alcester (supported by SDC funding and staff resources) is the Conway Fields Recreation project which will provide improved facilities for youths.
Poor state of pavements: raise with WCC.	Support – This action point can be supported and discussions are already in progress with WCC Highways.
Problems with speeding traffic: raise with WCC/ Police/ PACT	Support – the Community Plan seeks to reduce the number of road traffic accidents in the district.
Requirement for more sheltered and adapted housing: raise with WCC and with SDC especially in terms of Local Development Framework.	Investigate/action – planning policies in the adopted District Local Plan support development to meet an identified local need. The Planning Service is currently working on the early stages of a new Core Strategy which will set out a broad vision for planning and development in the district for the next 20 years. The Planning Policy team met the Alcester Town Council at the beginning of this process and intends to return to discuss issues at each stage. They intend to use documents such as the Town Plan to inform the preparation of this document.
Essential Services – Community life	
Request for more flowers and planting in public areas: raise with SDC and Alcester in Bloom.	Support/action – SDC currently supports Alcester in Bloom through grant funding.
Lacking a swimming pool: raise with local schools and SDC (who have no policy to supply one).	Support – SDC Sport and Leisure Services suggest that a local school may have a swimming pool which could be opened to the public and would support the action by the Town Council to open negotiations. The Town Plan Steering Group have been advised that according to the Sports England

Parish Plan Action	SDC Proposed Response
	<p>facilities planning model there is already a sufficient provision of swimming pools in the district (as opposed to some other types of facility) so SDC has no plans to build a new swimming pool in Alcester.</p>
Essential Services - Housing	
<p>Need for low-cost and rented accommodation (see also environment section): discuss with providers and contact SDC to discuss housing needs in context of the Local Development Framework.</p>	<p>Endorse and action - Policy COM.1 of the Stratford District Local Plan allows for the provision of local occupancy housing on the basis of an identified need. SDC and the Rural Housing Enabler are keen to support the Town Council in this work.</p> <p>Looking to the longer term, the SDC Planning Service is currently working on the early stages of a new Core Strategy which will set out a broad vision for planning and development in the Stratford district for the next 20 years. The SDC Planning Policy team met the Alcester Town Council at the beginning of this process and intends to return to discuss issues at each stage. They intend to use documents such as the Town Plan to inform the preparation of this document.</p>
Economy	
<p>Problems with finding suitable employees (skills/experience/abilities): Identify issues and raise with local employers and Chamber of Trade - SDC Vision for Alcester.</p>	<p>Support – The Community Plan aims to ensure people have the skills necessary to obtain employment. The aims of the Vision for Alcester support this action point however the identified projects for this year do not specifically address this issue. The Learning and Skills Council and Advantage West Midlands may be useful contacts.</p>
<p>Problems with enlarging premises or relocating in Alcester due to lack of available sites: contact employers and raise with SDC in context of Local Development Framework.</p>	<p>Investigate /action – the SDC Planning Service is currently working on the early stages of a new Core Strategy which will set out a broad vision for planning and development in the district for the next 20 years. The SDC Planning Policy team met the Alcester Town Council at the beginning of this process and intends to return to discuss issues at each stage. They intend to use documents such as the Town Plan to inform the preparation of this</p>

Parish Plan Action	SDC Proposed Response
	document. It should be noted that the countryside around Alcester is within the West Midlands Green Belt, meaning that national planning policy requires very special circumstances to justify development causing any harm to the character and openness of the area.
Make Alcester more attractive to visitors and tourists: Town Council to consider options and raise with Vision for Alcester/ Better Welcome projects.	Action - A priority project for Vision for Alcester (supported by SDC funding and resources) is the creation of a Heritage Trail/Riverside Walk in Alcester which will be attractive to residents and tourists. If the bid is successful, the Better Welcome (supported by Advantage West Midlands) will support this project too.
Parking, Traffic and Footpaths	
Lack of parking in the town: continue discussions on providing additional parking facilities and residents parking schemes.	Investigate – The Head of SDC Community Services has already been in discussion about this, and explained that SDC is not prepared to provide further parking spaces as this has been proven in other centres to have no effect on availability of parking through the day. Two solutions that have been proven to work are small charges and limiting maximum stay and SDC would be prepared to help implement these. A Parking Strategy is being prepared for the whole district and the Town Council has been consulted on it. Other suggestions include promotion of a car sharing scheme through the Town Council website, and discussions with WCC Safer Routes to School (01926 412252) and WCC cycling officer (01926 410410).
Speeding/ more speed control measures: Discuss with WCC/Police/ PACT	Support – the Community Plan aims to reduce road traffic accidents in the district.
Pavements are poor, particularly for the disabled: raise maintenance with WCC.	Support – This action point can be supported and discussions are already in progress with WCC Highways.
Environment	
Need to identify sites for future housing needs: raise with SDC Planning Services in context of Local Development Framework.	Endorse and action - Policy COM.1 of the District Local Plan allows for the provision of local occupancy housing on the basis of an identified need. Stratford District Council and the Rural

A1. Town plan questionnaire – analysis of results

A2. Business Survey

introduction

The last Town Plan was prepared over seven years ago in 2000.

At the request of Alcester Town Council, a similar community led steering group was set up in Autumn 2005 to assist in the development of a new Town Plan.

In order to inform the development of the Town Plan preparatory work was undertaken involving:

- Asking residents their views on the major issues facing Alcester – 64 responses were received.
- Discussions with local employers.

In light of this initial analysis a Household Questionnaire and Business Survey were put together in Spring 2006. The Household Questionnaire was delivered to every household and the Business Survey to every local employer in the Parishes of Alcester, Kinwarton, Arrow and Weethley.

The Household Questionnaire was completed by 721 of the 2,663 households, amounting to over one-quarter (27%) of all households.

The replies have been analysed (the full analysis is attached as an appendix) and are summarised below. This key document sets out what services and facilities the people of Alcester want improved and important features of the locality that they want to be retained.

The Plan will be forwarded to relevant authorities and partner organisations for their consideration - and subsequent

incorporation - within their own policies and actions.

Key partner organisations whose views will be sought on this draft Plan include:

- Warwickshire County Council
- Stratford-on-Avon District Council
- Warwickshire Community Council
- Police
- Local community groups
- Other interested bodies

Following these consultations on the draft Plan, a separate Action Plan will be drawn up and incorporated into this Plan by the Town Council.

The finalised Town Plan will provide a basis for :

- priorities and policies
- resource allocation
- influencing the actions of other partner agencies
- considering the need for new initiatives
- bidding for funds to improve local facilities.

The Steering Group has worked for two years to reach this point. I would like to thank them and the support provided by the community and local businesses in assisting with the Plan. This provides a clear and effective statement of the opinions and aspirations of the community of Alcester.

Chair of the Steering Group

Councillor Nina Knapman

alcester

The small, historic town of Alcester is located in south-west Warwickshire. The area is mainly rural, situated some 9 miles to the west of Stratford-Upon-Avon and 7 miles to the south of Redditch.

The town has pre-Roman origins and many artefacts from the Roman occupation are displayed in the Town's Museum. While Alcester has grown rapidly in over the past 40 years it retains its individual small town character.

The town is a focal point for the surrounding rural communities. It provides jobs, housing, community facilities and local services.

Local services are largely concentrated in, or adjacent to, the High Street. The central core of the town is a conservation area and contains numerous listed buildings.

The pace of construction has slowed in recent years, with few development opportunities within the town boundary.

The Alcester Bypass was completed in 1990 and takes through-traffic to the western and southern sides of the town with associated environmental benefits.

For the purposes of this Plan, the area is sub-divided into:

1. Alcester
2. Oversley Green
3. Kinwarton
4. Arrow
5. Kings Coughton

Collectively these areas comprise the parishes of Alcester, Kinwarton, Arrow and Weethley.

Special character

Alcester can be traced back to pre-Roman times. It received a Royal Charter to hold a market in 1274. Alcester remains a small, historic, Middle England market town.

Ethnically it is mostly white and Christian. The representation of ethnic minorities is small but growing, with a recent influx of labour from Eastern Europe working in agriculture and hospitality sector.

The economy comprises a diverse mix of sectors and firm sizes. Key employers include manufacturing, distribution, hotels & restaurants, local retail / business services and public administration.

Unemployment is low and the economy shows a high degree of 'self-sufficiency', with the majority working in Alcester and the County.

Tourism is key to the future, building on a distinctive natural environment, the many buildings of historic and architectural merit, two major local visitor attractions and sites of archaeological interest.

It also provides a focus for much civic and community activity, with a significant number of high profile events staged in the Town.

The small size of the town, easy access to town and countryside contribute to the feeling of a close knit community, proud of its heritage and traditions.

This is further reflected in the variety of clubs, societies, groups, classes and the significant community 'asset base'.

Not surprisingly, the community was highlighted as the most important factor to local people.

essential services

Police, fire and ambulance

There was a low level of satisfaction with police services with only 22% rating services as good compared to 30% who felt that they were poor. Seven respondents noted that the police station is not open 24 hours a day and felt that there is insufficient police presence in the town. A high proportion of respondents (62.4%) felt unsafe in certain areas, notably Hopkins Precinct.

Community safety remains a priority, having been identified as a key issue in the Town Appraisal 2000. This reflects a wider national problem with anti-social behaviour publicised in the national press. Locally and nationally, it appears largely associated with a mixture of petty crime, largely relating to vandalism and drunkenness in and around the town centre. A high proportion of respondents (nearly half), have been personally affected by vandalism or drunkenness in the past 18 months.

The service provided by the fire service team was rated as good by 57% of households. The ambulance service was also rated good by 38.6% of respondents, although there was a considerably lower rating for hospital transport, with just 19% considering these services to be good.

Utilities

While the full range of utilities are provided in and around Alcester (electricity, gas, water and sewerage services), concern was expressed by a number of respondents about the need for better drains & the need to address the flooding of the River Arrow. In the main, respondents were satisfied with the state of street lighting, although there are clearly variations across the Plan area as a much high proportion of respondents in Kings Coughton thought that street lighting was poor (38% compared with 11% overall).

Waste and recycling

The Town Appraisal 2000 previously identified high levels of satisfaction with refuse collection and recycling services. As well as general waste, the district council collects glass, cans, paper/card and garden waste. Collection of plastics / plastic recycling facilities would also be welcomed (17 respondents). Over half of respondents further noted they would use a bottle bank, garden waste skips, newspaper, clothing and can banks, if provided. Some people would like to see some more dog and litter bins.

Public transport

Of the 243 respondents, frequent usage is low but very important to this minority of residents, including some for whom it is the main mode of transport to work. A very high proportion of respondents of all ages make occasional use of public transport, mainly for shopping and other social / leisure pursuits.

Health and welfare

The area is served by two local medical centres providing a range of clinical and health care services. The Questionnaire asked respondents to identify whether they experienced any difficulties in getting to a range of health services. This identified significant access issues notably in relation to:

- Doctors – 90% have problems accessing often or occasionally
- Hospitals – 84% have problems accessing often or occasionally
- Dentists – 77% have problems accessing often or occasionally

A further 6 respondents noted that there is no NHS dentist in Alcester.

Respondents were further asked to rate a range of medical services, where they had been used in the past 12 months. This indicated a very high level of satisfaction overall. Summarising results for respondents who had an opinion, the ambulance service had a very high satisfaction rating (97% rated services as good or reasonable); most other services rank highly (doctor, district nurse, health visitor, maternity care, meals on wheels).

Levels of satisfaction were much lower for home help (21% rated as poor), counselling (36% rated as poor) and physiotherapy services (34% rated poor).

Education

There are a number of educational institutions in Alcester, namely:

- Alcester Grammar School
- Alcester High School
- St Benedicts RC High School
- St Nicholas C of E Primary School
- Our Lady's Catholic Primary.

In terms of importance to the community, over one-fifth (21.6%) of respondents highlighted the importance of schools to their household.

Overall, households completing the survey have 236 children in education, from nursery to secondary school: 34 in nursery; 88 in primary and 111 in secondary; and 3 in other.

In relation to the development of educational services in the area some clear priorities emerged, with overwhelming support for more adult education (66% of respondents); 47% want after school clubs (further discussed below); and 38% want holiday play schemes.

There was little support for additional nursery school / playgroup provision. The Advantage Alcester 'Healthcheck', although somewhat dated (2002), also noted that Alcester is fairly well served in respect of pre-school education.

community

Population profile

The 2001 Census indicates that the Parish of Alcester had a population of 6,214 (52.6% female / 47.4% male), living in 2,663 households. Average household size is 2.31. The average age of the community is 40.2 years (UK=38.8). The population is largely white (97%), with a small ethnic minority population (of Irish, Indian, Bangladeshi, African, Caribbean and Chinese). 31.2% of households are lone person (17.7% lone pensioners), 38.9% married couples, 8.5% co-habiting, 7.6% lone parents and 3.9% other.

Socio-economic characteristics

While South Warwickshire is affluent there are small pockets of deprivation, including localised concentrations in and around Alcester. National deprivation statistics are prepared by the Department for Communities & Local Government (DCLG). The Index of Multiple Deprivation (IMD 2004) comprises an overall index score (IMD) plus the following seven 'domains':

- Income
- Employment
- Health Deprivation and Disability
- Education, Skills and Training
- Barriers to Housing and Services
- Crime and Disorder
- Living Environment

Comparing Alcester IMD 'scores' relative to those for other 'Super Output Areas' (SOAs) in the wider Stratford District indicates:

- SOAs in Alcester rank 2nd and 5th most deprived of the total 71 SOAs in Stratford-Upon-Avon District
- Income Deprivation - SOAs in Alcester rank 1st and 2nd most deprived of the 71 SOAs in the District
- Employment Deprivation - SOAs in Alcester rank 4th and 5th most deprived of the 71 SOAs in the District
- Skills and Training Deprivation - SOAs in Alcester rank 1st and 5th most deprived of the 71 SOAs in the District.

These parts of Alcester also perform poorly on a range of health indicators (life expectancy, illness and disability, mental health, emergency admissions to hospital) relative to the rest of the District.

Examining deprivation in Alcester relative to the wider national picture indicates that some of its most deprived areas also fall within the 'top 15% of most deprived areas in England', notably for education and barriers to housing and services - the latter underlining problems of housing affordability.

In terms of income deprivation, Alcester has areas that are the most deprived locally and also nationally fall within the top 30% of most deprived areas in the country.

In parts of Alcester around one-fifth of the population is on benefit, mainly concentrated in Ten Acres and the Conway Estate area of the town. The latter lies to the north of the River and is a well established former Council Estate. It contains a mixture of family houses with gardens, sheltered bungalows for older people and some flats. Around the edge of the estate is newer development of mainly one and two bedroom houses and bungalows.

While it has not been possible to isolate questionnaire responses based on income, previous work has highlighted the more limited opportunities available for low income groups in the town.

While the Health domain indicates Alcester suffers less from health deprivation than other parts of the country, nevertheless it is a key issue for certain neighbourhoods. Both the 2001 Census (1,040 persons) and the Town Plan questionnaire (116 persons) identify 16.7% of the population that suffer from a limiting long term illness (6.7% of working age), most resident in Alcester.

The Census further indicates that 7.6% of the population's health was thought to be 'not good'. This has implications for the wider community with 9.3% of the population required to act as unpaid carers.

Young people

The 2001 Census indicates that there were some 775 young people aged 10-19 living in the Parish of Alcester, around 12.5% of the total population.

The questionnaire identified a number of issues facing younger people. Nearly two-thirds (65%) of respondents are of the view that facilities for the 17-25 age group are poor and nearly half (45%) felt facilities for children up to 16 are poor. These appear to be significant increases on the comparative responses for the Town Appraisal 2000.

This echoes the results of a 2001 report into community needs in Alcester.¹ This report also highlighted the lack of provision for children and young people along with expressed interest in improved youth and after school club provision, a skate park and interest in a cyber café.

Schools and jobs are generally more important to younger age cohorts and the general environment less so. This is further reflected in terms of the improvements with the greatest potential to improve Alcester. Younger age cohorts (25-44), generally placing far greater priority on further investment in children's play areas and less in for example cultural facilities.

¹ Alcester Opportunities Group. A Report into Community Needs in Alcester. Warwickshire Community Education Service, September 2001.

Older people

Approaching one in four (22.9%) of the population is aged 60 or over. Many of them take part in local organisations and clubs. Local volunteers (often senior citizens themselves) deliver meals on wheels, and drive the sick to hospitals, doctors, the shops, family and friends.

Health and access issues are particularly important to this age cohort. For example, there is a strong age dimension to the views of respondents as to how user-friendly the pavements are for the disabled, pushchairs or wheelchairs. Here some 40%+ of respondents aged 65+ thought the state of the pavements for the previously mentioned groups is poor.

Interestingly, there is no clear correlation between public transport use and age, perhaps indicating the key factor here is income.

Older people expressed greater concern regarding speeding traffic. Analysis by age group indicating quite a clear correlation between increasing age and perception that speeding traffic is a problem in Alcester. The proportion responding positively to this question rising from 43% for the 25-44 age cohort to 76% for the 85+ cohort.

Not surprisingly, health problems increased with each age cohort: one-third of the 75-84 age group having a health problem / disability that affects their daily living, this proportion rising to over two-fifths for the 85+ cohort.

The responses further indicate the specific needs of the elderly, notably in relation to housing. Here much higher proportions of people expressed the need for more sheltered and adapted housing. Elsewhere, responses indicate that access to most medical services was felt to be reasonable, notwithstanding the concerns previously noted concerning home help, counselling and physiotherapy services.

The satisfaction ratings in respect of local social facilities for the over 60s among this specific age cohort are also uniformly high.

In general, older age groups rated the environment as the most important affecting their quality of life. In terms of improvements to Alcester older age cohorts prioritised more flowers/shrubs and tidier shop fronts. The importance of seating is strongly related to age.

Communications

Previous discussions have revealed that many people were unaware of the range of services and facilities offered through the Town. Local services were seen as poor at communicating the services they had to offer.

When respondents were asked about the amount of information available about what's going on in the Alcester area, 9% felt information provision is poor. This is a significant fall from the 2000 Town Appraisal, where the comparative figure was 19%. 4 respondents specifically noted the need for a public notice-board in the town centre and one mentioned the possibility of a town website.

Community life

Alcester is perceived to be close-knit community. There are numerous community clubs, societies, groups and classes. Alcester has also long been the meeting place of different Christian movements.

For most, community life in the locality tends to revolve around faith buildings (Church House, Our Lady & St Joseph Parish Hall), local pubs and shops, schools and community facilities. The latter includes Globe House (museum & library), Greig Memorial Hall (leisure centre), several community centres, playing fields, clubs and voluntary services.

Improvements to social facilities that would most improve Alcester included more flowers (90 respondents thought this to be the greatest potential improvement) and more seating (96). A further 97 identified a Swimming Pool as the greatest potential improvement. Other potential improvements identified included children’s play area and leisure centre.

Community meeting places in Alcester

The Greig Hall	Town Hall	Jubilee Court
Trades & Labour Club	Methodist Church	Catholic Church
Alcester Opportunities		Baptist Church
Malt Mill Lane Community Centre	Alcester Rugby Club, Kings Coughton	St Benedicts RC School St Nicholas School
Scouts & Guides Moorfield Road	Globe House	

Previous studies have noted the: ‘significant community asset base of buildings to support traditional services and facilities for the local community’²

Town events

Alcester has also developed a reputation for a number of events which draw the community together and bring the town to life. Local events include:

- Alcester Court Leet events – Annual Mop, Annual Street Market, Town Criers. St Nicholas Christmas Fair.
- Arts events – Alcester Folk Festival, Forest of Arden Arts Festival, Alcester Male Voice Choir events, Victoria Silver Band.
- Parades – Pancake Day race, Easter Day & Remembrance Day Parades.

In addition, events are staged at the two major attractions in the local area – Ragley Hall and Coughton Court.

² WSP Development. Alcester Market Town Initiative: Final Report. March 2003.

Local services

Alcester is a 'picturesque' town, with many historical buildings. Free car parking is provided in the centre of Alcester. It is easy to access the centre of town. This contributes to the feeling of a 'close knit' community.

Shops

Alcester is distinguished by a large number of independent, small shops, albeit there is a limited amount of speciality retailing.

Residents like to shop in Alcester to help support local shops and general convenience. Over a third mentioned the social contact arising from shopping locally.

There has been a longstanding concern with the closure of traditional shops / convenience stores and growth of charity shops, estate agents, takeaways etc.

Pubs

Alcester has a number of traditional coaching inns. These provide attractive places to eat and drink in an historic atmosphere. In the High Street this includes the Royal Oak, Three Tuns, the Bear, The Turk's Head and Hollybush Inn. Elsewhere, Angel House has associations with Queen Victoria.

Globe House

Globe House provides a one-stop shop for the District Council and Town Council facilities. It also includes the local museum.

Greig Centre

The Town's major leisure facility with sport hall, courts and gym; it is used by numerous clubs, societies and community groups.

Housing

Alcester provides a significant mix of housing including detached, semi-detached and terraced homes. The 2001 Census indicated that 68.3% of housing is owner occupied, and 18.9% rented from a housing association, 1.5% rented from a local authority and 7.2% from a private landlord. Most rented property is located in Alcester in areas such as the Conway Estate.

Overall the population is relatively 'settled', with around 85% of respondents having lived in the area for 5+ years. Nearly two-thirds of respondents have lived locally for 16+ years.

A flavour of the extent of housing need has been gauged in the questionnaire, with some 9.5% of respondents indicating that there is either an individual in the household / or the whole household, currently in need of alternative accommodation. This proportion rises to 25% in Arrow, albeit the absolute number is low. The main reasons given for the difficulty in moving to the accommodation needed included: the cost of moving and the availability of homes to rent or buy. The majority (61%) wish to move within Alcester.

Asked whether there is a need for more accommodation in the Alcester area:

- 26% of the respondents felt there was no need for additional accommodation in any of these categories
- The remaining 74% of respondents felt most strongly about the need for low cost sale accommodation: 33% felt more was needed, 28% felt there should be restricted sales to locals, and 26% wanted more Local Authority / Housing Association rentals.

Community safety

Although in national terms the IMD indicates Alcester is less deprived than many other areas, community safety / fear of crime is identified as a major issue in the survey. This is reflected in the high proportion of respondents (62.4%) who felt unsafe in certain areas, notably Hopkins Precinct (where 54% of respondents felt unsafe / 13% respondents felt unsafe in the High St).

A frequent and longstanding complaint is the number of young people 'hanging around' the streets, mainly around the Precinct. Previously, concern has been expressed that pubs are attracting some anti-social youth behaviour causing problems in / around the High Street in the evening/night-time.

A high proportion of respondents (nearly half), have been personally affected by vandalism or drunkenness in the past 18 months. 57 (12%) of respondents experienced theft and 13 (2.8%) had been mugged in the past 18 months.

New projects...

While a range of suggestions are made in terms of future improvements to Alcester, the overwhelmingly most important related to better security mentioned by 276 (61%) of respondents. This holds true regardless of age.

economy

A distinction needs to be made here between the economy of Alcester (ie. businesses / workplaces based in Alcester) and the resident labour force (ie. people who live locally but may not work locally). The difference between the two usually made up of a mix of commuting and unemployment.

Local economy

The economy contains a robust mix of sectors and size of firms. Key sectors include manufacturing, distribution, hotels & restaurants, public administration and local retail / business services. Local services are based mainly in the town centre, with most industry based on the estates at Arden Forest (major employment area), Kings Coughton and the high-technology innovation centre at Minerva Mill. The latter has start-up incubation units. The town has a tourism profile based in large part on the profile of the two local attractions: Ragley Hall (a 17th century house and home of the Marquess of Hertford) and Coughton Court (a 15th century house owned by the National Trust but managed by the Throckmorton family).

Labour force

The 2001 Census states there are 3,076 people aged 16-74 in employment. The District tends to have low unemployment rates vis-à-vis the region/nation.

- Male employment - the majority (56.7%) are in full time employment, with just 2.9% part-time. Unemployment is put at 2.8% or just 60 people.
- Female employment - this is more evenly split (24.4% PT / 32.3% FT), with female unemployment put at 1.8% or just 40 people.
- 425 (13.8%) of employed people are self-employed.

Of the working population, many (1,314 / 29.8%) have no qualifications.

Respondents to the survey indicated that the main place of work is in the Alcester area (33%), or elsewhere in the County (27.7%). There is a significant amount of working at home (9.6%). 23.4% commute out of the County to work – mainly the conurbation. While it is not surprising to find that the vast majority (79%) of people travel to work by car / van, interestingly the next most popular modes of transport included walking (7.4%) and cycling (4.6%). These proportions remain consistent with the responses to the Town Appraisal 2000.

Barriers to employment

49 respondents indicated that they are actively seeking work currently. Barriers preventing them from taking up employment, training or study opportunities included: the cost of childcare and ill health / disability. However, in the main a host of 'other' non-specified factors were felt to be critical barriers. This reflects the often very specific nature of problems facing individuals out of work, especially when unemployment levels are very low.

Local employer perspectives

The views of local employers are based on discussions held during the course of 2005, plus the Business Survey completed by 28 firms drawn from a cross-section of sectors (manufacturing 21%, other services 18%, construction 18%, retail 14%, business services 14%, distribution 11% and tourism 4%) and locations (town centre 21%, Arden Industrial Estate 61% and Kings Coughton Industrial Estate 14%).

Profile of local businesses

For those responding to the Business Survey, the average age of the business was 19.2 years with the year of establishment ranging from 1944 to 2005. Small and medium sized firms (SMEs) predominate employing on average 17 persons each. The majority of employees (50.4%) live within 5 miles of their employer.

This further underlines the robustness of the local economy with a diverse mix of sectors and age of firms, including both new starts and long established firms. Overall there is no dominance on one major employer or sector; SMEs tend to be resilient to fluctuations in the trade cycle and changing patterns of demand.

The majority of businesses are locally orientated; on average 42% of sales arise from customers in Warwickshire, 32% of sales arise elsewhere in the UK outside of the West Midlands region and just 9% of sales are to customers elsewhere in the EU. This reflects the predominance of local retail and business services.

In terms of workforce change, over the past 12 months half of the businesses reported an increase in employees and some 60% anticipate their workforce to increasing over the following 12 months. 12 firms thought they would need to enlarge their premises over the next decade.

Twelve firms identified problems filling vacancies (mainly advertised via the local press). Key factors cited include: lack of applicants with required qualifications / skills (8 firms), lack of applicants with required experience (7 firms) and general lack of suitable candidates / basic ability (9 firms). This underlines the continuing significance of skills and training but also basic levels of educational achievement and what might be termed 'life-skills'.

The major constraints on business expansion were identified as: premises (44%), finance (24%), clients (20%) and labour supply (16%).

Major concerns

Discussions with local employers highlighted the following specific concerns:

- Inadequate parking facilities in Alcester
- Difficulties in recruiting local people / shortage of local labour
- Limited contact between the schools and local industry
- Making Alcester more attractive to visitors and tourists

parking, traffic & *footpaths*

Parking

Parking is becoming an increasing issue along with the general increase in car ownership rates combined with the general increase in development densities.

This is indicated in the questionnaire, with an average of 1.52 vehicles per household. For the 721 households that responded, 1,014 cars were kept. While 32.7% had access to a garage, a further 58% parked vehicles off the road. The highest level of on road parking was in Alcester (10%).

58% of respondents cited occasional parking problems in Alcester and 13.5% frequent problems. This is reflect in the recent study by WSP³ which found that virtually all town centre car parks were full at some point in the day along with frequently observed illegal and incorrect parking.

While the general road network was not mentioned, local businesses also have emphasised the need for additional parking facilities in Alcester.

Traffic

In view of the above it is perhaps not surprising to find that general congestion and the lack of parking were considered to be the most significant contributory factors to the traffic problems in the Alcester area. 13 respondents specifically mentioned the High Street 'crossings' as an issue.

The two issues highlighted tend to be strongly related, with High Street tending to be the first preference for parking, and then if no spaces are available drivers continue through town to other parking sites.

Speeding traffic is also considered to be a problem by a (slight) majority of respondents (55%), especially in Alcester. While over ¼ of respondents wouldn't support any suggested speed control measures, the other ¾ would support the suggested measures fairly equally. Warning signs (31%) being the most popular measure, closely followed by cameras (29%), then 'children at play' signs, new speed limits and extended speed limits.

Roads & footpaths

Around ¾ of respondents felt the state of the roads and pavements is reasonable or good. However, when asked how user-friendly the pavements are for people with disabilities, pushchairs or wheelchairs, 31% thought they were poor.

³ WSP Development. Alcester Market Town Initiative: Final Report. March 2003.

environment

When asked about what factors are ‘most important’ to local residents, the environment was rated second. This reflects the quality of the urban fabric, the rivers (Arrow, and the Alne which joins the former in Oversley Green), associated spaces and the countryside which lies within one of the five main character areas within the District known as the Arden area. Arden is a medieval term meaning high / steep.

Built environment

Alcester has a wealth of architecturally and historically important buildings: the Town Hall (circa 1620), St Nicholas Church (the focal point of the High St), Old Malthouse and Malt Mill Lane (a conservation area), Cruck House in Henley Street (the oldest surviving house in Alcester) and Churchill House (a fine example of an 18th century property). There are several historic connecting passageways in the town locally known as ‘turies’.

The built environment is further embellished by the successful ‘Alcester in Bloom’ initiative. The Town has won the regional and national competition. A number of trees within the Town are covered by Tree Preservation Orders. The area contains significant sites of archaeological interest, many housed in the Museum. The Alcester & District History Society has produced a Roman Trail for the town.⁴

Countryside access

The surrounding natural environment is extremely attractive and includes the River Arrow Local Nature Reserve.

While the River Arrow tends to be hidden from the casual visitor, the surrounding countryside is in general attractive and accessible. Local footpaths are in a relatively good state having been the subject of a three year programme of work by Alcester Civic Society and Warwickshire County Council. This is reflected in the high proportion of respondents that know where local footpaths are and can use them without difficulty (77%).

Further non-motorised access is afforded via the National Cycleway routes through Great Alne and Kings Coughton.

Planning and development

60% of respondents thought it is appropriate at this stage to identify sites which might be suitable for future housing needs. Of the potentially suitable sites identified, very high proportions gave positive responses to development on the proposed sites at the former St Nicholas Infant School in Moorfield Road (80%) and the car showroom on Priory Road (75%).

Other	3	0.7%	2	6.9%	1	1.1%	1	5.9%	0	0.0%	7	1.2%
No need for any	113	24.9%	9	31.0%	28	29.5%	4	23.5%	2	33.3%	156	26.0%
No. responses	779		35		144		30		7		995	
No. persons	454		29		95		17		6		601	

26% of the respondents felt there was no need for additional accommodation in any of these categories.

The remaining 74% of respondents felt most strongly about the need for low cost sale accommodation (33% felt more was needed), restricted sales to locals (28%), LA/HA rentals (26%). 10-12% felt there was a need for more private rentals, owner occupied, shared ownership and sheletered housing, whilst 5% felt there was a need fro more adapted accommodation and 1% felt there were other accommodation needs.

Other:

4 respondents felt there was a shortage of starter homes & 1 respondent felt there should be more single person homes

Is there any value in analysing these results by age group?

Question 25 : What type(s) of housing development would be acceptable in the Alcester area to you ?

Q25 Acceptable Development	Alcester (incl Alcester Heath)		Oversley Green		Kinwarton		Arrow		Coughton		ALL AREAS	
None	120	24.3%	6	15.4%	22	19.8%	3	14.3%	0	0.0%	151	22.6%
Single dwellings in controlled locations	90	18.3%	11	28.2%	24	21.6%	3	14.3%	0	0.0%	128	19.1%
Small groups of less than 10	167	33.9%	14	35.9%	49	44.1%	9	42.9%	2	40.0%	241	36.0%
Carefully designed larger groups	43	8.7%	5	12.8%	13	11.7%	3	14.3%	0	0.0%	64	9.6%
Conversion of redundant buildings	260	52.7%	28	71.8%	59	53.2%	14	66.7%	4	80.0%	365	54.6%
Expansion on the edge of Alcester	74	15.0%	1	2.6%	11	9.9%	3	14.3%	0	0.0%	89	13.3%
Other (specify...)	12	2.4%	3	7.7%	1	0.9%	3	14.3%	0	0.0%	19	2.8%
No. responses	766		68		179		38		6		1057	
No. persons	493		39		111		21		5		669	

23% of respondents think there should be no housing development in the Alcester area.

55% believe redundant buildings should be converted to housing.

36% believe small groups of less than 10 homes are acceptable.

19% believe single homes in controlled locations are acceptable.

13% believe expansion at the edge of the town is OK.

Only 10% believe groups of houses larger than 10 are acceptable and only 3% specified other acceptable development:

Other: 1 respondent mentioned developing Allimore Lane and 2 mentioned building one bedroom apartments.

Question 26 : In your view would it be appropriate at this stage to identify sites which might possibly be suitable for future housing needs?

All Areas	262	39%	346	51%	58	9%	6	1%	672	100%

4 respondents mentioned the need for a public noticeboard in the town centre and one mentioned the possibility of a town website.

Analysis of Responses by Age

Q9 – Is your household / individual unable to move to suitable accommodation because:

This is a household level question – the system will not let you cross-tab a household q to a personal q – age category (q13) is a personal q.

Q21 – If you use the bus, what do you use it for and how often?
1=Often, 2=Occasionally, 3=Never

	School			All
	Often	Occ	Never	
11-15	0	0	0	0
16-17	0	0	0	0
18-24	1	0	0	1
25-44	1	0	1	2
45-59	0	0	2	2
60-64	0	0	2	2
65-74	0	0	1	1
75-84	0	0	3	3
85+	0	1	0	1
	2	1	9	12

	Work			All
	Often	Occ	Never	
11-15	0	0	0	0
16-17	0	0	0	0
18-24	0	0	0	0
25-44	5	5	0	10
45-59	1	6	2	9
60-64	0	1	2	3
65-74	0	1	1	2
75-84	0	0	3	3
85+	0	1	0	1
	6	14	8	28

Out of 28 answering this q, 20 (71%) use bus often or occasionally to go to work. More prevalent in younger workers, but due to small no. responding, this is not too meaningful.

	Shopping				% Often/Occasional
	Often	Occ	Never	All	
11-15	0	0	0	0	
16-17	0	0	0	0	
18-24	0	1	0	1	
25-44	1	22	1	24	92%
45-59	0	23	2	25	92%
60-64	5	18	0	23	78%
65-74	4	34	1	39	87%
75-84	8	35	3	46	76%
85+	4	9	0	13	69%
	22	142	7	171	83%

Would appear the older the respondent the less likely they are to use the bus to go shopping.

Medical Visits					
	Often	Occ	Never	All	Offt/ Occ
11-15	0	0	0	0	
16-17	0	0	0	0	
18-24	0	0	0	0	
25-44	1	2	2	5	60%
45-59	0	1	2	3	33%
60-64	0	0	2	2	0%
65-74	1	3	1	5	80%
75-84	1	6	3	10	70%
85+	0	2	0	2	100%
	3	14	10	27	63%

Would appear that elderly more likely to use the bus for medical visits, but sample size too small to be clear.

Social/Leisure					
	Often	Occ	Never	All	Offt/ Occ
11-15	0	0	0	0	
16-17	0	0	0	0	
18-24	0	1	0	1	100%
25-44	1	20	1	22	95%
45-59	1	18	2	21	90%
60-64	1	7	0	8	100%
65-74	6	22	1	29	97%
75-84	8	19	3	30	90%
85+	2	2	0	4	100%
	19	89	7	115	94%

Use of bus for social/ leisure high in all age groups, except sample size too small to be significant in some age groups.

Other					
	Often	Occ	Never	All	Offt/ Occ
11-15	0	0	0	0	
16-17	0	0	0	0	
18-24	0	0	0	0	
25-44	0	2	1	3	67%
45-59	0	3	2	5	60%
60-64	0	1	0	1	100%

Q39: Which of the following is of the most importance to you?

Q43: Which of the following would most improve Alcester?
1=greatest; 2=reasonable; 3=limited; 4=least

	Leisure Centre						Grkst/ Reas	Arts Centre						Grkst/ Reas
	Grkst	Reas.	Lmtd	Least	All			Grkst	Reas.	Lmtd	Least	All		
11-15	0	0	0	0	0		0	0	0	0	0			
16-17	0	0	0	0	0		0	0	0	0	0			
18-24	1	0	2	1	4		0	1	0	2	3			
25-44	17	12	12	25	66	44%	10	15	23	17	65	38%		
45-59	22	16	27	34	99	38%	15	27	26	36	104	40%		
60-64	7	6	14	14	41	32%	6	12	15	12	45	40%		
65-74	11	7	11	21	50	36%	6	14	20	12	52	38%		
75-84	10	3	1	14	28	46%	6	6	4	10	26	46%		
85+	2	0	0	2	4	50%	0	1	1	0	2	50%		
	70	44	67	111	292	39%	43	76	89	89	297	40%		
	24%	15%	23%	38%	100%		14%	26%	30%	30%	100%			

Does not appear to be much age differential – possibly core working ages (25-65) less interested in leisure facilities than young & retired; retired more interested in Arts Centre than other age groups.

Appendices - Town Plan Questionnaire Analysis

	Children's Play area						Better Security					
	Grtst	Reas.	Lmtd	Least	All	Grtst/Reas	Grtst	Reas.	Lmtd	Least	All	Grtst/Reas

13. Over the next 10 years are you likely to enlarge your premises?	No.	%
Yes	12	46%
No	14	54%
	26	100%

14. If no, do you wish to relocate to another site?	No.
In Alcester	5
Within Stratford Upon Avon District?	0
Elsewhere ?	0

15. What are the major constraints on the expansion of your business?	No.	%
Finance	6	24%
Premises	11	44%
Finding clients	5	20%
Marketing	1	4%
Planning	2	8%
Labour Supply	4	16%
Parking	2	8%
Crime / security	1	4%
Other (please specify).	5	20%
No. of businesses responding to this question:	25	

Other (please specify).

Don't wish to expand

Our premises are indeed limited: not having the A435 bypass also does not help. However, the single largest constraint is finding highly skilled traders

Size of market

The Government!

There is a shortage of land for expanding the existing industrial areas
