

WEST AREA JOINT COMMITTEE**26 JUNE 2008**

Subject: Community Grants
Lead Officer: Contact Chris Wood on 01789 260640
Portfolio Holder: Councillor Chris Williams

Summary

To provide updated information on the budget available for Community Grants and details of applications received

Recommendation

That the Committee considers and awards rejects or defers grants as appropriate for the applications presented.

1 BACKGROUND/INFORMATION

- 1.1 As mentioned earlier in the agenda, SDC and Warwickshire County Council officers have begun work to integrate the two authorities' grants services and it is planned that this integration will be in place in time for the September round of Joint Committee meetings. However, a number of applications to the SDC grants scheme have been received in the past few months, or are pending having been deferred at earlier SDC Area Committee Meetings due to lack of available budget or requiring further information.
 - 1.2 Details of the current SDC Grants Conditions and the approved scoring system that has been used to assess applications are contained within Appendix I. The resultant scores indicate to the Committee the level of grant aid that may be considered for each application.
 - 1.3 These are the first grants to be considered by the newly established Joint Committees. Please note however that the applications presented have been scored, for eligibility, using pre-existing SDC criteria.
 - 1.4 Councillors may wish to consider deferring some applications to September when they will be assessed by the new joint criteria. To help with this each application has been judged to be either **time critical** or not and this information appears in the tabulated appraisal of each project. This judgment has been based purely on supporting documentation and written information provided on the application form.
 - 1.5 Comments have been incorporated into the report from WCC officers. The comments are based on:
 - Whether the application has been deemed time critical by SDC
-

- Whether the application would be recommended for a grant based on the criteria of the County Councils Community Development Fund

Whether the application would be recommended for funding as a project in its own right

2 FINANCIAL INFORMATION

The total budgets available are detailed below. Committee is asked to consider the following grant requests:

2.1 Revenue

	Balance	Grant Request	Time Critical?
Initial allocation	£14,960		
Previously awarded or allocated	£800		
Agreed Summer 08 Playscheme Grants <ul style="list-style-type: none"> • Monty's Holiday Club, Welford on Avon (£400) • Insight Summer Playscheme, Studley (£400)

- 5.4.1 The extent to which each applications supports delivery of the Council's Corporate Strategy is identified within the details provided

5.5 *Equality Impact Assessment*

- 5.5.1 An equality impact assessment is included with each proposal

6 Risk Assessment

- 6.1 A risk assessment is included with each proposal

7 CONCLUSION

- 7.1 That the Committee considers and awards rejects or defers grants as appropriate for the applications presented.

Robert Walsh

HEAD OF COMMUNITY SERVICES

Appendix I

Grants Conditions and Approved Scoring System

Main Conditions Relating to Council Grants Scheme

Eligibility

- 1.** Town and Parish Councils are not eligible to apply for grants from Stratford-on-Avon District Council, except for play area, formally approved Parish Plan or appraisal related grants, or applications relating to Market Town Initiative projects, identified within approved action plans.
- 2.** Expenditure by a religious organisation will only be considered for grant aid where it specifically relates to the adaptation or improvement of facilities for non-religious, community leisure and recreational purposes.
- 3.** Applications for grant aid for expenditure on projects outside the Stratford on Avon District Council's area will only be considered where it can be clearly demonstrated that such expenditure will be of benefit to residents of the District.
- 4.** Applications by an Educational Authority, or establishment, will only be considered for grant aid where the project would directly benefit the leisure and recreational needs of the general community.

Frequency and Amount

- 5.** A group will only be awarded one grant within any 24-month period, except for where a Partnership Agreement is in place, or where the applicant is applying for an annual event or festival, or where an Area Community Committee for specific reasons deems a project high priority. Where further funding will be sought within the 24-month period, a group should present details of its estimated income and expenditure for the period.
- 6.** Stratford-on-Avon District Council will only normally make grants of up to 25% of total project costs. This sum can be increased at an Area Community Committee's discretion if the project is identified as high priority.
- 7.** Stratford-on-Avon District Council will only award grants (up to a maximum of 50% of total project costs) for play area projects which meet the standards adopted in the Minimum Requirements for Play Areas (as shown overleaf). No grants will be given to those play area projects that do not meet the standards.

Supporting Evidence

- 8.** In support of the application, the Council will require up-to-date accounts from the organisation together with three quotations for undertaking the necessary work. Any grant offered would be based on the lowest quotation received. However, if the work is proposed to be undertaken on a self-help basis, details should be submitted of the actual cost of the materials to be used in order that an appropriate level of grant aid can be made.

Notification should be received from the local Parish or Town Council that they are prepared to give support, preferably in financial terms, to the scheme concerned. Account will be taken of efforts made by the applicant organisation to raise funds for the project themselves.

Minimum Requirements for Play Areas Suited for People with Disabilities

1. The minimum width through which anybody must pass in a gate should be 1 metre.
2. Wheelchair users require a minimum end turn of 1200cm to complete a 'U' turn from a corridor of 110cm wide turning into a corridor of 100cm wide.
3. Any seats and perches should be placed at regular intervals. Any seats should be 450 – 520cm high and perches should be 500 – 750cm high. Children's seats can be as low as 350cm. Heel space of 100cm should be provided under seats. Some seats should have backs and arms for additional support.
4. Any picnic tables should avoid designs that require people to climb over beams (ie should have no wooden supports linking the seat to the table).
5. A variety of equipment should be provided for children with sensory impairments (ie colour/tone contrasted, textured and provided a noise stimulus). The inclusion of water and sand provide a multi-sensory experience for all children.
6. Tactile signage should be provided on equipment, entrances and toilets.
7. If toilet provision is made, a fully accessible toilet should be included – where provision is only available for one toilet, that should incorporate the specifications laid down in 'Designing for Accessibility'.
8. Path surfaces must be (a) compact and firm, (b) stable, (c) nonslip, and (d) obstacle free. Changes to the texture or colour of the path surface can be used to give cues to people with visual impairments. Suitable materials include concrete, bitumen macadam, stone, timber, brick/paving or mown grass. Unsuitable surfaces include sand, loose gravel, woodchips or cobbles.

Scoring System

Each application will be scored against the following criteria:

Corporate Strategy Aims (1 point for 1 Aim met or 2 points for 2 or more Aims met):

- Aim 1: The Development of Safer & Healthier Communities
- Aim 2: The Development of Sustainable Communities
- Aim 3: The Creation of Inclusive Communities

Deprivation Mapping (1 point):

This refers to the Ward in which a project is situated. A point can be scored if the number of households, within the Ward, and in receipt of means-tested benefits exceeds the District average (ie 13.50%)

Value to Community (1 point):

To recognise issues such as significant numbers of users, rural isolation, accessibility, schemes arising from Parish Appraisals, etc.

Percentage Grant Award:

- Low Priority : 10–15% (1 or 0 points)
- Medium Priority : 20–25% (2 points)
- High Priority : 30–35% (3+ points)

ACCs must award grants within the respective bands unless they give clear reasons why they wish to give a different percentage grant. These reasons must be stated in the Committee's Notice of Decision.
