- Health Authority The Chief Executive of South Warwickshire PCT is engaged with the ACLP
- Police
- Other Bodies/Individuals The ACLP also has membership from Stratford College, the Learning and Skills Council, the Community and Voluntary Sector, the University of Warwick, the Workers' Educational Association and the Diocesan Board of Education

FINAL DECISION **NO**

SUGGESTED NEXT STEPS: Details to be specified

- Further consideration by this Committee
- To Council
- To Cabinet
- To an O & S Committee
- To an Area Committee A finalised Community Learning Plan for 2006/07 to be made available to Members in the Summer. Progress against 2006/07 and planned actions for 2007/08 to be reported in Spring 2007.
- Further Consultation

Stratford-on-Avon Area Committee – 15th March 2006

Area Community Learning Partnership for Stratford-on-Avon District, Progress Report 2005/06 and Action Plan for 2006/07

Report of the Area Community Learning Partnership

Recommendations:

- (1) That the progress made in the development of the Community Learning Strategy and the multi-agency Community Learning Plan for Stratford-on-Avon District is noted.
- (2) That the detailed progress report against 2005/06 actions be endorsed.
- (3) That the Area Committee gives their comments on the draft outline plan and actions for 2006/07.
- (4) That a finalised Area Community Learning Plan for 2006/07 is submitted to the Area Committee for information in the summer.

1. Background

- 1.1 Community Learning is one of four priorities in the current Single Education Plan (SEP) which aims to provide a vision for learners across the County. It will feature prominently in the forthcoming Children and Young People's Plan (CYPP). The CYPP will over time set the strategic agenda within which Warwickshire County Council and all relevant partner agencies will collaborate to improve outcomes for children, young people and their families in their communities. These outcomes relate not only to learning but also their health, safety, wellbeing and the positive contribution they can make to society.
- 1.2 The development of the Community Learning Strategy and multi-agency Community Learning Plans enable the Local Authority and all partner organisations:
 - To engage in new ways with the local community, so that learners, parents and carers, and our partners are all working together to help learners of all ages to achieve their potential.
 - To enhance communication and understanding across the range of learning provision.

- To ensure that increasingly complex arrangements for learning:
 - Are planned more coherently to avoid needless duplication
 - Have agencies working together – not in competition with each other
 - Seek to respond to the differing needs of local communities
 - Are subject to local democratic scrutiny.
- 1.3 The Area Community Learning Partnership (ACLP), which has met regularly since April 2003, is co-ordinated and serviced by the Education Department and is the vehicle through which the Area Community Learning Plan has been developed.
- 1.4 The ACLP is the 'Lifelong Learning Key Group' for the Stratford-on-Avon Local Strategic Partnership.
- 1.5 Progress against the 2005/06 action plan was monitored by the ACLP on a regular basis and all partner agencies contributed to the process. A full progress report for 2005/06 is attached at **Appendix A**.

2. The Area Community Learning Plan 2005/08

- 2.1 Progress made against the Community Learning Plan for 2005/06 has been encouraging and has given partner agencies a firm basis to build upon when considering future working.
- 2.2 This is a time of great change for a number of organisations including the Learning and Skills Council, the Connexions Services and the Primary Care Trust. These changes along with the modernisation of the County Council mean that to finalise agreed working activity will take a little longer than in previous years.
- 2.3 Attached as **Appendix B** Members will find a draft outline plan for 2006/07. This document includes a brief summary of progress to date along with a partnership activity action plan for 2006/07.
- 2.4 In recognition of the wealth of activity taking place within the District in support of the ACLP priorities, a directory of activity is included at the back of the plan. This information will be updated annually and will be used to encourage dialogue and joint working to facilitate and support the priorities of the ACLP.
- 2.5 The ACLP welcomes the comments of the Area Committee and will look to finalise the plan in late May. A copy of the finalised plan will be shared with Members in the summer.

AREA COMMUNITY LEARNING PARTNERSHIP FOR STRATFORD DISTRICT

Progress Report 2005/06 and Action Plan 2006/07

FOREWORD

The Area Community Learning Partnership is the Lifelong Learning Theme Group of the Local Strategic Partnership. The Partnership reflects a multi agency approach to meeting the priority needs across the area and

In 2005 the Partnership produced a plan containing a summary of work previously undertaken and the plans and aspirations for the period through to 2008. It is now time to review progress made during 2005/06 and to consider the focus for 2006/07. The Community Learning Plan progress report 2005/06 and action plan 2006/07 has been produced accordingly. This document should be read in conjunction with the more detailed Area Community Learning Plan for Stratford District 2005/08.

WHAT IS THE AREA COMMUNITY LEARNING PARTNERSHIP?

The Area Community Learning Partnership (ACLP) is the Education and Lifelong Learning “Theme Group” of the Local Strategic Partnership for Stratford District. The Area Community Learning Partnership consists of representatives of local government, health, education bodies, business, and voluntary and community organisations. The ACLP operates by bringing the various agencies together to learn from and influence each other in the interests of the people of Warwick District. This plan describes their commitment to cooperate in order to improve learning opportunities for people in the area.

OUR LONGER TERM PRIORITIES AND FOCUS

Stratford on Avon District should be “a total learning community” where everyone, regardless of age or life circumstances, is enthusiastically engaged in and has the opportunity to experience the enjoyment of learning. This will bring benefits to individuals, families, communities, the economy and the environment.

In order to achieve this we will need to make sure that:

- the best possible advice, guidance, equipment, staff, learning environment and learning resources are available to learners
- people can learn in places convenient to them whether this is at home, in a family setting, at work, in places dedicated to learning like libraries, schools and colleges, in a local community centre or elsewhere
- the value of learning is understood by those making decisions about resources
- full use is made of technology including computers to make learning available to everyone.
- barriers to learning have been reduced so that everyone has the chance to satisfy her/his learning needs.
- all organisations that provide learning work closely together to ensure that the needs of learners are put before the needs of their organisations, so that the best use is made of available resources and learners can freely and easily move from one organisation to another

DRAFT 2 (17 02 06)

OUR VISION FOR 2005/08

The Area Community Learning Partnership has identified the following issues as priorities for collaborative working through to 2008

- Improve joint working amongst all learning providers and improve the planning and coherence of learning opportunities.
- Support Parents and Families including Early Years Education and Child Care
- Support the Priorities of the Children and Young People Plan
- Respond to the changing skills requirements for employers and their workforce within Stratford District
- Support specific groups of learners in the District
- Support the role of the voluntary and community sectors in community learning
- Build the capacity of local communities and make the best use of community resources

WHAT HAVE WE DONE SO FAR?

The ACLP first met in April 2003 and during that time the membership has changed to ensure the most appropriate liaison and collaboration between partner agencies.

Regular meetings are held to ensure information sharing and to encourage the effective use of resources within the District.

The ACLP has been invaluable in promoting and enabling collaborative working and we are now ready to move forward to develop new ways of working to meet partnership priorities and support the development of Stratford District as a sustainable community.

DRAFT 2 (17 02 06)

Over the past twelve months the ACLP has been actively engaged in supporting the development of the Bishopton Children's Centre. The Library Service and the Early Years and Childcare Development Service have worked well together to deliver the Bookstart Scheme with babies and children receiving books at various stages within their early years.

Stratford on Avon College and Alcester Library have worked together to develop the ICT suite in the newly refurbished Library and Information Centre.

A great deal of work has gone into establishing the current level of agency involvement within one of the priority communities. This will then enable an accurate audit of how provision meets local need and allow partners to work together to make the most appropriate and effective contribution.

Work has also taken place to build collaborative partnerships between a range of learning providers for young people aged 14 – 19 years.

Partner agencies have continued to work throughout the Borough to ensure that people have opportunities to learn close to where they work or live. Learning Opportunities are provided throughout the week and at different times of day. We hope to do more during 2006/07 to ensure people are aware of how to access information about what opportunities are available to them.
