It was not awarded until end of Nov 2020 due to continuing delays in obtaining technical approal from Highways England (HE). Site works are therefore not progressing as forecast in Q2, resulting in spend slipping from 20/21, through into 21/22 and into 22/23. HE commuted sum also transfered from 20/21 to 22/23 as payment will only become due on scheme completion in accordance with legal S6 agreement between WCC and HE. It is not anticipated this will impact the final outturn cost as an appropriate contingency has been allowed for in the scheme budget to address risks such as this.

Assistant Director - Education Services	(446)	1,754	2,200	(58)	(58)	0	(504)	1,696	2,200	This forecast has significantly reduced from Q2 due to: 1) The c/f high Needs deficit from 2019/20 being removed from the budget as it no longer needs to be held on the revenue ledger and can, in line with recent statotory instrument, be held on the balance sheet. 2) The deficit balance for this financial year has been taken to the services to which they relate within SEND and Inclusion. This has left: *£2.281m overspend on the High Needs Block for which work is progressing to identify new saving/interventions to bridge the gap identified over the life of the MTFS. *£0.082m reduction in forecast due to less DBS checks due to COVID.

Assistant Director - Education Services	3,579	2,591	(988)	(882)	(882)	0	2,697	1,709	(988)	The reported under-spend is primarily the result of temporary budget of £0.788m that is being held for the forward funding of places and the pears site that are not needed till 2021/22 due to the delay in the opening date from Jan'21 to Sept'21. There are also underspends that relate to budget held to cover Gross Surplus targets on Education traded services and from FOM changes that have not happened of £0.350m. Overspends that were reported at Q2 have also been drastically reduced due to work that has taken place on staffing and transformation and additional income that has been received for PRC /Schools Pension. This has all resulted in a reduction in forecast of £1.483m since the Q2 forecast.

Service Delivery - Operational Response, Prevention, Protection, Control	15,028	14,858	(170)	(634)	(658)	(24)	14,394	14,200		There is an overspend in Response through crewing pool (overtime) payments which is being masked by a large underspend in on-call payments due to the fact that there has been restricted attendance on training courses as a result of COVID19 restrictions. Wuch work has taken place to reduce the impact of overtime. For example; WFRS have just recruited 9 personnel to be transferred into the service and are also embarking on the appointment of W/T Firefighters to the 'virtual fire station' meaning that we will have more individuals recruited to use flexibly to fill gaps at flat rate instead of having to use overtime. The retirement of some long term sick personnel has contributed to the reduction of crewing pool payments since the Quarter 2 commentary. All of this will help, and will be needed for when the on-call training again. There is also an underspend relateing to the Fire Protection part of the budget, we are utilising the Grenfell Grant initially, but will need to carry forward the Fire Transformation funding to the next financial year.
Service Support - Training & Technical	4,133	4,459	326	(113)	(135)	(22)	4,020	4,324	304	This overspend is a combination of issues; National Workwear Project, initial uniform roll-out £60k, additional staffing to cover long term absence £45k, purchase of Smoke Hoods £30k (following Grenfell enquiry) and Operational Training £88k. This is all planned expenditure and the Service had established reserves to fund this, however, these reserves have now been placed into the Directorate Risk Reserve. The Service will continue to monitor the financial position as the year progresses, but would like to identify again at this stage that there may be some dependency upon reserves. In addition to this the Training Delivery Service has forecast a loss of income (£53k) from course cancellations due to COVID. Some of this can be off-set by savings from reduced activity which presents a net loss of £32k.
Service Improvement - Business Transformation & Projects	731	820	89	(25)	(25)	0	706	795	89	There is an overspend in this area due to the additional costs of COVID £245k, including BBCT People Manager, Fire Marshalling work, tier 3 support (lateral testing). There are also underspends within this area (£156k) relating to staff vacancies due to a delay in recruitment which is presenting a net overspend of £89k. Any underspend against projects relating to Fire Transformation funding will need to be carried forward into 2021/22 to support the continuation of projects.
Service Support - HR, IT, Finance & Pensions	1,517	1,599	82	0	0	0	1,517	1,599	82	Included within this forecast is the cost associated with 1 confirmed and 2 potential ill health retirements, an increase to the budget provision of 2. In addition to this the Service is now required to fund the cost of the Fire Pension Scheme Administration, a cost previously funded form the LGPS. The Service does hold a specific reserve to support such costs, however funding the ongoing administration costs will need further consideration.

Assistant Director - Communities	537	597	60	0	0	0	537	597	60	This budget has been impacted by salary transfers as a result of FOMs, including £80k for a post in Corporate Policy which was not agreed as part of the service redesign process. The impact of this has been offset to some degree by underspend on the legal budget, but not in its entirety.
Transport & Highways	7,506	7,328	(178)	(8,548)	(5,175)	3,373	(1,042)	2,153	3,195	The service area has been significantly impacted by Covid-19 resulting in an overspend which is largely comprised of a reduction in expected income for parking charges. Additionally there has been an impact of unrealised savings linked to parking within OOP2020, Cabinet made a decision not progress the savings proposals this year.
Infrastructure & Sustainable Communities	3,856	3,454	(402)	(1,409)	(1,062)	347	2,447	2,392	(55)	An estimated £290k of this underspend will be the subject of roll-forward requests; these relate to Commonwealth Games, HS2, Transforming Nuneaton and the Minerals Local Plan. The net overspend forecast is therefore actually £235k, which is caused by the impacts of Covid-19 on Country Parks income and costs, balanced by savings primarily from vacancies.
Waste & Environment	22,929	23,036	107	(3,168)	(2,259)	909	19,761	20,777	1,016	The forecast reflects a significant reduction in income from trade waste and the sale of recyclables due to Covid-19. Waste collected at the kerbside has increased significantly, particularly dry recycling and bio waste. The financial impact of this is partly balanced by the decrease in waste at the recycling centres, however, green waste at the recycling centres can be processed by windrow composting where bio waste collected at the kerbside has to be sent to in vessel composting at a significantly higher cost. The net position has increased significantly from last quarter as the exact impact of COVID19 has become clearer and more data become available to inform forecasting. There remain large risks and every effort will be used to manage these within the current forecast.
Economy & Skills	3,558	5,285	1,727	(2,688)	(2,016)	672	870	3,269	2,399	Updated forecast remains in line with Q2 forecast. The overspend against budget is caused predominately by reduced income from the Business Centres. This is due to the three month rent and service charge free period granted to tenants due to Covid- 19, and is slighly offset by savings in staff costs due to vacancies within the team following the service redesign.
Net Service Spending	38,386	39,700	1,314	(15,813)	(10,512)	5,301	22,573	29,188	6,615

Service	Agreed Budget	Forecast	Variation Over/ (Under)	Agreed Budget	Forecast	Variation Over/ (Under)	Agreed Budget	Forecast	Variation Over/ (Under)	Reason for Net Variation and Management Action
	£'000	£'000	£'000	£'000	£'000	£'000	£'000	£'000	£'000	
Assistant Director - Adult Social Care	9,204	13,855	4,651	0	(933)	(933)	9,204	12,922	3,718	Overspend is due to approved additional expenditure for reimbursing Adult Social Care providers for Covid-19 related cost pressures. Unbudgeted income is due to reimbursement from the CCG relating to nursing which WCC have administered but is the financial responsibility of the NHS.
Disabilities	82,863	81,141	(1,722)	(9,416)	(8,946)	470	73,447	72,195	(1,252)	Underspend due to two areas, Learning Disabilities due to a COVID-19 related reduction in use of and/or closure of day opportunities, short breaks and services such as domiciliary care during the pandemic, however the reduced activity also means there has been a reduction in client contributions towards these activities. There is also unspent budget which would have funded expected service pressure areas, staffing and projects which haven't been delivered as a direct result of COVID-19. Due to the COVID-19 related nature of factors influencing the underspend we expect a return to usual levels of expenditure as we recover from the pandemic.
Mental Health	11,680	13,639	1,959	(547)	(848)	(301)	11,133	12,791		Overspend almost entirely due to pressure on all services from increased client numbers, continued funding of clients over 65 years of age, a number of transitions from children's to adult mental health services and transforming care cases. Pressures across both residential and supported living services.
Older People	78,901	82,677	3,776	(30,201)	(31,782)	(1,581)	48,700	50,895	2,195	Overspend is due to increased demand and unit costs for domiciliary and residential care packages as a result of COVID-19, partially offset by reduced nursing care costs (due to being temporarily funded by the NHS under the hospital discharge guidelines) and additional income from client contributions due to the direct relationship of increased expenditure leading to increased client contributions. This overspend represents an upward swing from Q2 due to a reduction in the rate of income collected proportionate to expenditure as we have progressed through the year, this is owing to the hospital discharge guidelines.
Integrated Care Services	10,612	9,388	(1,224)	(646)	(235)	411	9,966	9,153	(813)	Most of the underspend is due to reduced expenditure for community equipment. As a result of COVID-19 the typical group of health patients supported by Integrated Community Equipment has reduced due to the cessation of elective surgery for 6 months and therefore significantly less equipment being issued in comparison with a normal year. There is also an underspend on Assistive Technology due to COVID-19 as planned pilot schemes have not been able to start. Within Reablement despite success in recruiting additional staff there is a staffing underspend from earlier in the financial year that is funding a new roster system, now implemented. This will translate into more staff in subsequent years, including enablement.
Development & Assurance	3,400	3,628	228	(782)	(815)	(33)	2,618	2,813		Overspend on Adult Specialist Transport costs, partially offset by underspend on staffing vacancies within Safeguarding service, Quality assurance service and Safeguarding Warwickshire.
Net Service Spending	196,660	204,328	7,668	(41,592)	(43,559)	(1,967)	155,068	160,769	5,701

Operational Excellence	3,360	4,275	915	(521)	0	521	2,839	4,275	1,436	The Shielding Hubs cost centre is forecasting COVID-19 related expenditure of £803,000 against a budget of nil. Further COVID-19 related spend totalling £781,000 has been accrued and is to be funded from additional central government grants. This additional expenditure relates to providing Contact Centre support to Public Health and Education Services. Staff vacancies and a reduction in operational costs will offset some of this unbudgeted spend.
Customer Contact - Customer Connect	2,556	4,955	2,399	(250)	(469)	(219)	2,306	4,486		The forecast overspend can be attributed to COVID-19 related expenditure for the Welfare Scheme ( $\pounds$ 546,000) as well as extra energy costs associated with the general Welfare Scheme ( $\pounds$ 106,000). Further one off Welfare Scheme related spend ( $\pounds$ 1,405,000) will be funded by a specific central government grant. An increase in telephony software costs in the Customer Service Centre to facilitate remote working for the advisors and the increased call volume ( $\pounds$ 154,000) has also increased the overspend.Staff vacancies have slightly reduced the overspend.
Customer Contact - Community Hub	7,378	6,971	(407)	(2,262)	(1,305)	957	5,116	5,666		There is a under achievement of Registration Service income due to COVID-19 restrictions (£618,000), in particular marriage fee income (£593,00). In addition, there is a further shortfall of income resulting from COVID-19 in the Library Service (£137,000) and the Heritage & Environment Service (£70,000). The overall overspend has been reduced due to staff vacancies and a reduction in operational costs.

Portfolio Management Office	1,884	8,305	6,421	(594)	(790)	(196)	1,290	7,515	6,225	The PMO Service overspend of £462k relates to pressures and new ways of working required to support the budget gap ahead of the pandemic; the service redesign was postponed but demand across the service escalated due to COVID-19 pressures; project resource has been deployed across the council to support COVID-19 response and recovery, and that continues. As the new service is established from October, we expect to improve our position on income generation, however this is likely to be affected by the ongoing need to deploy resources to COVID-19 presponse. Some of this overspend will therefore be off-set by COVID-19 specific funding, and the Climate Change Fund to cover costs of Programme Management. The remaining £5.7m relates to Community Testing (£1.1m) and Outbreak Management (4.6m) this expenditure is supported by grant funding.

<b>Project and programme management</b> - Organisation-wide restructure of programme and project support.	395	120	120	(275)	The PMO operating model is based on the ability to recharge for a large proportion of project resources deployed, and this was increased by £275k when it was restructured. The impact of COVID-19 has meant that significant project resources have been deployed on pandemic response projects and not rechargable projects. Considerable work on seeking to maximize recharging is taking place, and it is looking very likely that the recharging target will not be met. The situation may improve to some lesser extent during Q4, but prudence suggests that this forecast makes clear that none of the additional £275k will be met.

Assistant Director - Enabling Services	461	191	(270)	0	0	0	461	191	(270)	The underspend is a result of less demand for consultancy in 2020 as focus turned to dealing with the immediate demand of COVID response. The spare funding will be carried forward to support additional resources in ICT to explore process automation; and HROD to deal with short-term excess demand.
Facilities Management	7,935	7,437	(498)	(5,504)	(4,643)	861	2,431	2,794		Additional costs related to asset reinstatement and providing "COVID secure" environments. These may continue to increase. There is a shortfall in income, highlighted in the Q1 forecast as a result of income that is confirmed. However, reduced costs due to staff vacancies and Old Shire Hall spend is masking the true cost.
HR Enabling	5,703	5,692	(11)	(2,354)	(2,503)	(149)	3,349	3,189	(160)	There is a carry forward of £133k for the Graduate scheme that accounts for the majority of the underspend. Additional spend may be required to support demand pressures in HROD and Service Centre.

Property, Construction & Engineering	10,159	9,795	(364)	(2,480)	(2,631)	(151)	7,679	7,164	(515)	There is a carryforward of £360k to support the Pears Centre setup and annual costs. There has been a significant increase in payments made to schools that are Covid-related. If this forecast gross Covid pressure of £630k is offset by the Covid grants received by the LA, then Finance Delivery's forecast reflects an underspend, driven primarily from vacancies which we have been unable to fill until the latter part of the financial year; and ad hoc underspends relating to the impact of Cov-19 on eg travel, conferences, etc.

Communications	1,155	1,409	254	(712)	(712)	0	443	697	254	£240k of the variance can be directly attributed to WCCs response to Covid 19, and the need for comprehensive sharing of information across Warwickshire. There are also other minor variances relating to pay and additional resource.
HROD	830	1,008	178	(24)	(25)	(1)	806	983		The overspend relates to core salary costs. The recent move of the Transformation HROD Management budget into G&P has resulted in an additional overspend, also related to staffing resources.
Property Management	1,550	1,901	351	(1,051)	(1,057)	(6)	499	844	345	Significant in year savings on salary and staff related costs as a result both of the delay in the implementation to the FOM, and different working patterns due to COVID. Forecast RCCO £430k towards Hawkes Point/ Montague Road to cover financing for capital scheme, based on worst case scenario.
Legal & Democratic	7,191	7,378	187	(6,771)	(6,625)	146	420	753	333	The overspend within Legal and Democratic arises largely from a reduction in budgeted surplus within Legal Services - this reduction in surplus stems in large part from the need to use Agency staff to cover a high number of maternity absences and an under recovery of external income which has been impacted by Covid. The expected ratio of external to internal work is significantly different in 2020/21, and the increased internal work does not generate any surplus. A review at P8 on the predicted overall surplus and staff costs, has resulted in a reduced overspend position. This will continue to be reviewed on a monthly basis.
Corporate Policy	423	376	(47)	0	0	0	423	376	(47)	There is an in year underspend on salary costs due to a vacant post and a delayed start for some members of the team. This is partially offset by an on Consultancy costs in support of the Council's work on recovery.
