

Proposed Decision to be made Under the Council's Urgency Procedure by the Leader of the Council on or after 16 June 2021

UK Community Renewal Fund

Portfolio Holder	Leader of the Council
Date of decision	16 June 2021
	Signed 

1.0 Decision and recommended actions

That the Leader of the Council:

1. Approves the submission of bids totalling £3.405m for the seven projects listed in Table 2 split across the five districts and boroughs for UK Community Renewal Fund funding to the Ministry of Housing, Communities and Local Government (MHCLG);
2. Authorises the Assistant Director – Finance, as the Senior Responsible Officer, to complete and submit the necessary paperwork to MHCLG on 18 June 2021;

2.0 Reason for Decision

2.1 The UK Community Renewal Fund (CRF) is a new £200m Government Grant aimed at supporting people and communities most in need across the UK. The priorities of the CRF are:

- Investment in skills;
- Investment for local business;
- Investment in communities and place; and
- Supporting people into employment.

2.2 The Government is seeking bids that build on local insight and knowledge, and project proposals that align with long-term strategic plans for local growth, target people most in need

and support community renewal for a maximum of £3m per place. The secondary objective is to pilot programmes and new approaches ahead of the much bigger the UK Shared Prosperity Fund, to be launched in the Autumn, which will be replacing EU funding.

2.3 The Government has used the process to establish a new way of working between Government and places, using the highest tier of local government to build in an early stage evaluation of proposals in light of local needs and priorities. Warwickshire County Council is the lead authority across Warwickshire, which is split into five 'places', based on the district/borough boundaries and will need to submit a bid for each place.

2.4 This has meant operating to a very tight and restricted timetable. The prospectus for the CRF was issued in April and Warwickshire, as lead authority, advertised for bids from the 15 April, with a closing date of 20 May 2021. Since then a four-stage evaluation process involving County Council staff, representatives from the LEP and from the districts/boroughs has been undertaken to arrive at the list of projects recommended for submission to MHCLG for CRF funding.

2.5 As part of the CRF launch 100 priority places were identified based on an index of economic resilience across Great Britain. These areas were provided with additional resource to undertake the bidding process. None of the Warwickshire Districts/Boroughs were included in this list. Whilst this may reflect where the Government is looking to allocate funding, all lead authorities were invited to submit bids.

2.6 The submissions from across Warwickshire include some innovative projects that directly impact on local needs and priorities and would make a positive contribution to recovery, if supported by the Government. It has also been a learning experience for how a collaborative bidding and assessment process could work. Our submission to Government will therefore also reflect that this approach can deliver a locally tailored approach on a bigger scale and covering a wider scope in the future.

2.7 For these reasons it is recommended that the list of projects listed in Table 2 are proposed to MHCLG for approval.

3.0 Evaluation Process and Recommended Bids

3.1 As lead authority Warwickshire County Council is required to assess the bids via a robust process to ensure the bids going forward to Government are in line with the published prospectus and that outputs and outcomes are clearly defined for reporting purposes. Due diligence processes have filtered the bids received by scoring them against strategic fit, deliverability, effectiveness, finance, and efficiency.

3.2 Where outcomes are not achieved the Government will be able to claw back funding, so it is vital checks are thorough and do not expose the authority to financial risk. The likelihood of this has been reduced by creating a robust, auditable process of assessment which is explained below. Any risks will be further mitigated through the contracts which will be put in place with successful bidders.

3.3 Fifteen bids were received by the deadline of 20 May 2021 and went through the three-stage evaluation process with some bids being rejected at each stage

3.4 Stage 1

Finance and legal undertaking due diligence checks and check that the project met the minimum criteria of being able to deliver the stated outcomes by 31 March 2022. Those that met the minimum criteria progressed to stage 2

3.5 Stage 2

Each bid being reviewed against Gateway criteria set out in the CRF prospectus and scored independently by two separate individuals. The assessors were from across Warwickshire County Council finance function and also included staff from Coventry and Warwickshire Local Enterprise Partnership (CWLEP). Any bids submitted by WCC were scored externally by CWLEP. All scores were then reviewed by a Moderation Panel.

3.6 Stage 3

The projects which met Moderation Panel expectations were forwarded to the Economy and Skills team at Warwickshire County Council so they could comment on the strategic fit and confirm whether there was any likely duplication with already existing provision.

3.7 Stage 4

A Strategic Panel comprising WCC's Assistant Director of Finance, Assistant Director of Communities and senior management from Warwick District Council and North Warwickshire Borough Council reviewed the bids from a County level strategic perspective prior to creating a final short list.

3.8 The bids going forward in the Warwickshire County Council bid will have passed all stages of the process and are now being recommended for approval. The bids will be split into places (districts) for submission. The total value of the bids to be submitted on a place by place basis is as follows:

Subject to Leader approval the UK Community Renewal Fund bid form will be submitted in line with the above bids.

4.0 Financial implications

- 4.1 The programme requires Warwickshire County Council to act as Lead Authority for the management process around collating and ensuring bids meet due diligence standards
- 4.2 As the purpose of the report is to submit a bid for grant funding from MHCLG this report has no financial implications relating to the current budget of Warwickshire County Council. Any funding resulting from the process will be passed on per the terms of the grant agreement. WCC will be responsible for setting up the necessary contracted grant payments with the third parties.
- 4.3 There is a financial risk to the Authority if any funding advanced by MHCLG is clawed back as a result on non-delivery by the bidders and the Council is unable to recover any of the funding. The grant conditions attached to any funding provided to successful applicants will seek to minimise this risk
