County Highways	20,265	(6,106)	14,159	114			343	(229)	Town Centre management - barriers - to deal with COVID restrictions. There is an increase in cost due to new bus shelters for the Nuneaton area and also an underspend on salaries in Highways due to vacancies. There are now identified start dates for staff into vacancies later in the year. Also over recovery on income due to increased house purchases (search fee income).
Planning Delivery	4,508	(4,017)	491	56				56	Currently correct position should be an underspend driven by Tier 4b vacancies in Highways Development Management which are currently being recruited to and also Environmental Landscape Services due to surplus recharges for professional services for Nuneaton regeneration regarding Learnington roundabout. At present there is an overspend reflected due to an overstatement of cost in Flood & Water Management to be corrected in P7. Planning fee income is low at this point and will need to be adjusted at Q3, which may see an overspend going forward.
Transport Delivery	38,751	(29,677)	9,074	178			178	0	This is extra school bus services due to Covid.

Assistant Director - Education Services	3,467	(882)	2,585	(1,243)	(43)	0	0	(1.200)	Underspends are primarily the result of £1,251,000 which has been transferred by ASC for the Edge of Adulthood costs for CWD. This is being offset by minor overspends for legal costs and staffing vacancies
Education & Early Years (Commissioning & Strategy)	12,049	(3,286)	8,763	348	1	44	109	194	The overspend is primarily due to cost pressures on medical transport for pupils with medical conditions, coupled up with cost pressure from taxi services due to rise in demand on number of solo journeys require of £0.193million, COVID costs and Losses of income of £0.109million and contributions to earmarked reserves from the Virtual school S31 Grant and draw down needed from the earmarked schools in financial difficulty reserve.
SEND & Inclusion (Commissioning & Strategy)	34,055	(5,433)	28,622	2,888	136	0	26	2,726	The overspend is primarily due to a £1.870 million overspend on the Children with disabilities budget. There are significant pressures on the budget for Children in Care who have very complex needs, because of this there is a predicted overspend on the current budget. Other significant overspends are: £0.277million on SENDAR which are due to a large increase legal costs and the transfer of Mediation costs that are not permissible as a High Needs Block cost and so, are being recognised in this budget now. £465million on SEN transport based on revised more accurate modelling for taxi costs Minor COVID costs of £0.026million are due to an increase in services provided by WAS due to an increase in children being home schooled. There is carry forward of unused Phase 1 funding for the SICP from 2020/21 has now added to forecast which will be met by earmarked reserves of the transformation funding.
Education Service Delivery	6,480	(5,329)	1,151	615	0	0	626	(11)	The overspend is primarily due to losses of income due to COVID of £0.626million, a clawback from the EFA of £0.055million on the ACL grant due to the conditions of grant for 2020/21 not being fully met and a pressure on the Warwickshire Music staffing teaching budget where Corporate Board have agreed for extended period of pay protection until September.

	£'000	£'000	£'000	£'000	£'000	£'000	£'000	£'000	
Assistant Director - Education Services	2,129	(58)	2,071	(285)		(285)		0	Underspends based on estimated numbers of staff DBS checks needed, Central Schools Services Block contingency held to be used when all inflationary costs for CSSB are cofirmed throughout the year and additional income for Service recharges on payment for Trade Unions Partnerships aggrements.
Education & Early Years (Commissioning & Strategy)	35,023	(23)	35,001	(707)		(707)		0	Underspends are primarily the result of underspends in Nursery funding for 3&4yr olds. This is because the service is continuing to receive nursery refunds for overpayments in the Summer term due to lower numbers in settings because of Covid-19. This has decreased further since Q1 and P5 due to a drop in funding for Extended and Universal hours. It should be noted that the Early Years Block DSG allocated will be adjusted in July 2022 based on the January 2022 Census. This means that the underspend held for the Early years block will be adjusted following the January Census based on our predictions of how the allocation will be adjusted. Other underspends relate to vacancies in staffing and the difference between the actual scale point of staff and budgets being at midpoint. There is also funding being held which may be needed as part of a review which is taking place on the business support for the admissions service.
SEND & Inclusion (Commissioning & Strategy)	56,096	(711)	55,384	3,884		3,884		0	£3.541 million of this overspend is due to savings that need to be made in future years as part of the DSG recovery plan. After taking this into consideration we have a predicted overspend of £0.343m (this is a decrease of £3.606m)lition since Q1) which relates to activity and costs of placements for this year. The current overspends relate to the number and cost of placements in Independent Settings, an increase in places at Special schools from September to try and decrease the need for further higher cost placements at Independent settings. These overspends are being offset by additional savings that are predicted in Mainstreams and Special School Top ups, Flex Learning, Alternative Provision, and the Specialist Teaching Service. The main reasons for the decrease in forecast since Q1 are due to a review of the forecast for Post 16 funding which was forecasting a £2.256million overspend in error, a huge effort to minimise the growth in places in Alternative provision which has resulted in savings of £0.715million and the removal of mediation costs from the Mainstream cost centre as these were incorrectly being charged to the HNB instead c to SENDAR which is core funded.

Fire Leadership Team	917	0	917	60					Short term additional staffing costs due to the extension of a temporary acting-up position and the transition of the Chief Fire Officer role, plus the recruitment costs for the Assistant Chief Fire Officer position.
AM Response	15,610	(82)	15,528	236			72		Technical Support & Transport are operating without much variance. The overspend within the newly restructured Response area is made up of all COVID costs for Fire (£72k) and overspends within Health and Safety and Fire Control. Health & Safety currently has a temporary SM position and Fire Control is overspent due to the short term resolution for crewing issues. This is countered slightly because of a £40k underspend across the Response fire stations which has been managed effectively with the introduction of the virtual fire station. This has prevented significant overtime costs.
AM Protection	3,299	(488)	2,811	(106)				(106)	£132k underspend in Fire Protection will be a carry forward request, due to using Home Office funding ahead of MTFS allocation. An expected overspend in Training is due to transitional costs associated with the delay in the Capital training projects.
AM Prevention	1,595	(351)	1,245	(46)	(25)			. ,	There is an in-year underspend within fire transformation due to the timing of fixed term contracts and a short-term post vacancy. The forecasted underspend of £25k will be a carry forward request to fund the remaining length of contracts in 2022/23. Additional underspend due to a post vacancy and reduced pension contributions.
Business Support	1,580	0	1,580	9		29		(20)	Overspends relating to ill-health pension contributions and additional actuarial costs will be funded by drawing down on the Pension reserve.

Day crew plus fatigue mitigation - Review of the level additional funding allocated to mitigate the fatigue risk posed by the day- crewed-plus crewing system. The change delivers a long term saving of £140,000 a year, with higher savings possible as the service change is implemented in 2021/22.	370				Saving taken off the Fatigue Management Fund allocation and therefore guaranteed.
Further savings on third party spend - Review of services purchased from third parties to ensure value for money	15			15	The whole of the 15k saving on Third Party Spend was expected to come from savings achieved on the Training cost centre. Due to delays on the Training Capital Programme, this saving has so far been unachievable and does not look likely to be met this year.

Assistant Director - Adult Social Care	7,631	0	7,631	685			429	256	Covid costs of £0.429m for hospital discharges and support for the provider market. An unbudgeted contribution to bad debt provision and contributions towards the placement costs of children with disabilities aged 17 who turn 18 and transition into Adult Services this year, the Young Carers contract whose impact reduces demand on Adult Social Care and towards respite for parents of looked after children has been substantially funded by reduced spend on projects.
Disabilities	85,089	(9,583)	75,506	1,663			204	1,459	As in Q1 the majority of the overspend is a pressure within 'Physical Disabilities' of £1.328m, this is directly driven by increased expenditure in Homecare and Supported living which has an increase in average cost of 4% and client number increase of 7% which represents the increase in number of packages but also complexity of those packages. After Q1 there has been a review of all packages which is the main reason for the reduced expenditure forecast between Q1 and Q2. There were a number of packages that were left open and have now been closed or amended as appropriate. The remaining overspend of £0.553 is linked to Learning Disabilities also due to growing service demand in Supported Living & Daycare, in particular with an increase of 6% in the number of packages of care in supported living and cost increases of 4% on average across both service areas. There has been a reduction to the forecast between Q1 and Q2 for Daycare within Learning Disabilities as a number of packages are not being fulfilled due to clients not taking the service back up after covid reinstatement. These areas are mitigated by an underspend of £0.251m due to vacancies and staff related costs such as staff travel and also £0.204m costs to be reimbursed from the Hospital Discharge Grant.
Mental Health	14,226	(882)	13,344	1,472			15	1,457	Overspend due to increases across all areas of the service, with the largest increase being in supported living in the north in relation to younger people with complex needs and of secondary significance nursing in the south of the county where there are fewer alternatives to nursing care. Further to high demand, there is also a higher proportion of more complex, and therefore costly packages of care. This combination has led to the need to go outside of Warwickshire to secure beds, increasing the cost pressure further. To mitigate within the service there are plans to move a number of people on to more independent living. Overspend partially offset by increased in client contribution income and reduced staffing expenditure due to the delay in implementing Liberty Protection Safeguards as a result of covid.

Older People	84,229	(33,998)	50,231	794			3,042	(2,248)	Covid expenditure is in relation to the hospital discharge process. Some of this would ordinarily be funded from Adult Social Care but is currently being funded via the hospital discharge grant, creating an underspend at the level of the Older Peoples service. The hospital discharge grant has been extended to March 2022, resulting in an increased underspend. This is being used to mitigate the overspend forecast in Disabilities and Mental health. There is a forecast overspend in domcare and nursing which has been offset by reduced expenditure for residential placements and increased client contributions. Nursing placement numbers and average package costs are increasing as it is becoming more difficult to source domcare placements, resulting in an increase in spot placements. This is due in part to more expensive placements coming through from Health.
Integrated Care Services	10,964	(1,000)	9,964	(1,098)			0	(1,098)	The projected underspend is predominantly made up of the Assistive Technology budget of £0.700m which is not expected to be used this financial year due to the teams not having the capacity to run the pilots as the focus is on essential work dealing with Covid-19 alongside limited access to face to face dealings with clients to implement technology. The remaining underspend of £0.398m is staffing related including reductions in agency spend and on travel and equipment. This is an Increase in the underspend since quarter 1 of £0.190m, due to reductions in staffing related mainly in the operational therapist team. The total underspend of £1.098m still falls in with the previous two years trend 20/21 being an underspend of £1.133m and 19/20 being an underspend of £1.082m.

Assistant Director - Children & Families	4,438	(100)	4,338	(776)	(88)	0	426	(1,114)	Transformation is underspending by £88k (Q1 £30k) due to delays in the appointment of expected staff. Despite budgets worth £631k for Covid-19 that has been allocated to this AD line, the over-spend on Covid-19 stands at £426k (which is a small increase of £37k compared to Q1). This is comprised of a £500k over-spend on placements, which has been an estimation of the on-going likely impact during this financial year. There is also a £50k over-spend on the Innovate Agency staff contract. Legal charges for Covid-19 remain at Q1 levels showing a £120k under-spend. There is a £52k over-spend on third party savings but this is yet to be explored further and identified by CSU. Legal charges are £250k over-spending and have showed this static position since Q1. There is a £309k underspends held to aid pressures elsewhere in the Service and has been incorporated into the MTFS. The asylum grant contribution to indirect costs for the whole service has increased this quarter by £986,000 to £1,247,000. This is due to the confirmation that the rates paid for UASC and Leaving care have both increased, especially for UASC where the threshold of 82 children as at 31/3/2021 has been achieved and now attracts the higher daily rate.
Initial Response (MASH, IR, EDT)	5,576	(351)	5,224	1,346	(101)	0	674	773	Transformation is currently predicting a £101k under-spend on unfilled staffing posts. This is a further underspend of £23k compared to Q1. In total £674k has been forecasted for Covid-19 spending with £584k of this attributable to additional agency staff which is a decrease of £57k from Q1 and £89k for spending on existing WCC staff. The remaining over-spend in this service area is made up of £830k (an increase of £118k since Q1) on employing additional agency staff to cover vacancies and the increase in demand this service finds itself under. £57k (decrease of £40k since Q1) is also being forecast as an over-spend for Workers outside IR35 who are performing ISW assessments to help address the backlog. Internal foster care is also currently predicting an under-spend of £68k which is a small increase of £12k from Q1.
Early Help & Targeted Support	9,391	(2,829)	6,562	173	(229)	(117)	435	84	Transformation is showing a £229k under-spend which is a £137k decrease compared to Q1. This is due to salaries and recruitment issues and further slippage into future years. Priority Families is currently under-spending by £117k (due to successful PBR - Payment by Results) which represents a small decrease of £34k. Spending on Covid-19 is forecasting a loss of income within the youth service community buildings of £79k, £111k on additional agency staff and £245k on staff which is a quarter's increase of £114k. Establishment salaries are over-spending by £83k(£122k at Q1), of that £16k is on agency workers.

Children's Safeguarding & Support	29,778	(95)	29,683	1,335	(138)	0	389	1,084
Corporate Parenting	27,348	(6,172)	21,176	3,793	(119)	7	183	3.722 There is an under-spend of £257k (Q1 £113k) showing against transformation with the bulk of this due to under recruitment of staffing and programmer slippage. The HO has now confirmed that the rates WCC will receive for 2021/22 will be the increased. UASC will now attract a higher daily rate and the weekly Leaving Care rate has also increased. This positive news has meant an increase to the amount the grant is able to contribute towards the indirect costs which totals £1,247k and is reflected with AD line. CIC Placements - External foster-care and residential care are £2k and £3,489k overspending, (Q1 £102 and £2,752k). Within Residential Care there has been 11 new placements and 6 leavers since Q1, the total FTE is currently 57.53 which is a rise of 3.81 FTE since Q1. Internal foster-care is currently £312k under-spending (Q1 £265k). Parent and Baby's current activity continues to be volatile, and the forecast reflects further future placement activity and is showing a £203k over-spend which is an increase since Q1. The net change in placements therefore from Q1 totals £783k. Current weekly unit cost of residential stands at £4,516 per week against 2020/21 outturn of £3,989. This represents at face value a £527 increase. Of these costs it has been estimated that £500k is due to Covid-19 which is captured in the AD line but an additional £500k has been added in for the potential growth in placements costs till the end of the financial year. CIN Allowances - Allowances including an element for growth is currently showing a small over-spend of £8k which is a change of £93k compared to Q1. Week numbers have a face value a £22 cover demand has reduced by £133k to now being £137k overspending. £18k is due to over 16 additional additonal tagency has increased placements and the total overall maintenance payments which has been revised down by £108k since Q1 due to the £20 additional universal credit ending. Leaving care accommodation and allowance payments are currently showing a large increase of £898k sinc
Youth Justice	3,427	(588)	2,839	(111)	(44)	(29)	38	<ul> <li>Transformation is showing a small under-spend of £44k due to delays in recruitment od staff.</li> <li>Covid-19 forecast stands at £38k due to a planned unfilled 12 months position.</li> <li>Anticipated spend on remand placements has been revised for Q2 and is now showing an underspend of £29k.</li> <li>The grant is showing a small under-spend of £56k due to additional 2020/21 grant given in 2021/22. There has also been a re-imbursement of unused services from 2020/21 within the contract with Barnardos worth £71k and £58k on a SLA. Salaries and agency are showing overspends of £137k and £18k.</li> </ul>
Children's Practice Improvement	4,788	(369)	4,419	(261)	(249)	(108)	1	Transformation is forecasting an under-spend of £249k due to re-profiling of plans and under-spends on staffing. 95 The use of a Section 31 earmarked grant is also being re-profiled showing for this financial year an underspend of £108k. The remaining over-spend within the service is on Hay and predominately within the IRO service.
Adoption Central England	6,305	(5,845)	460	(167)	0	(167)	0	At this halfway point in the financial year it is anticipated that the volume of buying and selling placements will result in a small over-spend of £27k. This is in line with Q1 which was a predicted £9k overspend. Salaries are currently forecasting an overall under-spend of £99k (Q1 was £41k underspending) and a further £103k (£45k under-spend at Q1) is forecast to under-spend on 3 projects which were identified to take place this financial year but there is a delay in the upstart of these projects.

Business Intelligence	3,081	(120)	2,962	(154)	(175)				The underspend relates to two programmes (Data & Analytics Programme and Voice of Warwickshire pilot) which extend into 2022/23; the underspend will be rolled through to complete those programmes.
Portfolio Management Office	3,232	(1,842)	1,391	3,329			3,359	(30)	This overspend is predominately due to the reporting of Covid pressures and unallocated Covid funding. The PMO team is overall underspent by 30k. There has been some funding allocated for a new T4 post but recruitment has been delayed, pending clarity on the role accountabilities required. Once this post has been filled, this underspend will be requested as a carry forward into 2022/23, to fund this post next year.
Contract Management & Quality Assurance	2,125	(958)	1,167	178			209		The majority of this overspend relates to delivering the PPE Service in response to COVID19. There are ongoing pressures related to the number of staff at salary points above midpoint. It is likely that expected income from ESPO will overperform again this year which will mitigate these costs.
Change Management	1,293	0	1,293	(459)	(437)		1		This will reduce as some costs are as yet unknown e.g. tender outcome for digital mailroom and also PMO Q2 charges. Some underspend will be reprofiled to 22/23 as recruitment delays and Covid delays pushed activity back. Forecasted underspend is therefore committed.

This is subject to delays in delivery due to: a) the project working in more rural areas b) a national shortage of civil engineering contractors b) revised DCMS guidance regarding finances and project end dates and c) the recent Covid 19 pandemic. In addition, DCMS has put in place an annual Grant Gain share clawback process which has resulted in a reduction in the Grant claimed back by DCMS in 2021/22 with the remainder expected to be claimed in yearly requests based upon DCMS's gainshare calculations.

Assistant Director - Governance & Policy	(47)	0	(47)	23	2 000	2000	2000	23	The overspend relates to the Marcomms SLA with G&P which has currently been charged to the AD - it is hoped the cost can be mitigated and correctly allocated throughout the year. Q1 estimate was £17k but the actual charge was slightly higher.
Communications	1,147	(672)	475	253			444	(191)	£444k COVID variance related to additional employee costs, advertising and printing for COVID related activities - £290k allocated from COMF. £191k relates to a reduction in staffing costs against the general operational establishment as resources have been diverted to specific COVID work. A detailed review of coding and the split of work has resulted in this movement and presents a more accurate position for this financial year.
HROD	911	(64)	847	(48)	(15)		24		A permanent budget virement of £80k from Enabling Services has ensured that this budget is now at a more realistic level. In year vacancies and previous mitigation actions to try and address the previous budget shortfall have resulted in a one off saving on salary and staffing costs. The Transformation budget relating to FOM implementation is likely to overspend as COVID has caused delays and requires additional resourcing to complete the task.
Property Management	1,470	(897)	572	857		15	271	571	£521k unachievable, historic savings target. £24k relates to an incorrect creditor movement which has caused a pressure in 2021/22. £25k forecast overspend on consultancy fees for the Workplace Redesign Transformation project. £15k spend on One Public Estate (OPE) which is funded by a specific reserve. COVID spend relates to the delayed relocation from Montage Road (£51k) and the Croxall Street project (£220k).
Legal & Democratic	8,071	(7,699)	373	61			231	(170)	COVID variance relates to SAR Scanning (£17k), COVID safe meeting compliance (£85k) and the shortfall between locum costs to cover a backlog of internal COVID delayed work which cannot be recharged in full. There has been a shift in the ratio of external to internal work in the last three months which has resulted in higher income generation, and a recruitment lag has resulted in decreasing employee costs month on month.

Saving Proposal	Target £'000	Actual to Date £'000	Forecast Outturn £'000	Shortfall/ (Overachievement) £'000	Reason for financial variation and any associated management action	
Electronic record keeping - Reduced storage requirements as a result of the move to electronic record keeping	10	10	10	0	GC016	
Further savings on third party spend - Review of services purchased from third parties to ensure value for money.	7	0	0	(7)	GA011 is currently showing an overspend due to the inclusion of SLA costs for the services within G&P. It remains to be seen whether these can be mitigated during the year and therefore bring this budget, which has already had the savings removed, back on target.	
Vacancy management - Recognise natural underspends from staff turnover and operating undercapacity.	341	336	341	0	The forecasts to date suggest that these savings will be achievable in 2021/22 although they do rely on the recruitment, retention and turnover of staff throughout the year. The situation will continue to be monitored on a quarterly basis.

Government Grants & Business Rates	0	(150,127)	(150,127)	(17,966)			(17,091)		Of the £18.723m favourable variance £17.848m represents Covid grants that we have not budgeted for. This income is offset by expenditure reported by the services relating to Covid which was also not budgeted. Of the remaining variation £357k relates to Public Health Grant being higher than budgeted, £251k relates to Extended Right to Travel grant not budgeted and £267k relates to various other grants.

Capital Financing Costs	30,078	(2,878)	27,200	(2,241)				(2,241)	Capital financing charges are forecast to be £50k over budget offset by £2,291k forecast underspend on capital contingency. The £50k net overspend on capital financing is attributable to £567k underspend on external interest payments offset by reduced interest received on deposits and management fees.

Warwickshire Property and Development Company	1,537	0	1,537	(639)				(639)	Underspend due to a number of factors: - expected loss on interest on working capital loans reduced due to the prevailing interest rates - reduced estate management and consultancy fees as well as reduced spend on financial governance capacity due to delay in the approval of the business case (these will be incurred next year) - budgeted contingency unlikely to be required due to underspends above. These underspends are offset by loss of interest payment relating to equity land transfer that is no longer expected to be completed in this financial year.
