Section 1 - Purpose of this Statement

Between 12 July and 16 July 2021, Ofsted and the Care Quality Commission (CQC) conducted a joint inspection of the Warwickshire local area to judge its effectiveness in implementing the special educational needs and disability (SEND) reforms set out in the Children and Families Act 2014. On 23 September 2021 the inspection report for Warwickshire was published and as a result of the findings of this inspection, Her Majesty's Chief Inspector (HMCI) has determined that a Written Statement of Action (WSoA) is required to address five significant areas of weakness in the local area's practice.

Warwickshire County Council (WCC) and Coventry and Warwickshire Clinical Commissioning Group (CCG) are jointly responsible for submitting the written statement which has been produced in conjunction with the Parent Carer Forum, Warwickshire Parent Carer Voice (WPCV).

The local area is committed to improving support, services and provision for children, young people, parents and carers in Warwickshire. We are committed to working in partnership, increasing co-production, and building on the expertise within the system. Since the inspection, senior leaders in WCC and CCG have been working with services and stakeholders to understand the actions we need to take to make improvements. These include parents and carers, staff, the SEND and Inclusion Partnership, and schools and settings.

This is our statement of action. It sets out our vision and priorities, the arrangements for working together to oversee this work, key themes from the inspection, the actions we will take to address the concerns identified by the inspectors and the framework we will use to measure performance.

Signatures - Nigel Minns (Director of Children's Services, Warwickshire County Council), Councillor Jeff Morgan (Portfolio Holder Education and Children's Services, Warwickshire County Council), Dr Sarah Raistrick (Chair of Coventry and Warwickshire Clinical Commissioning Group), Elaine Lambe (Chair of Warwickshire Parent Carer Voice).

Section 2 - Vision and Priorities

Warwickshire County Council, the CCG and Warwickshire Parent Carer Voice have committed to a common SEND vision of ensuring:

'all children and young people have the right to lead a fulfilling life and be part of their community'

The local area is ambitious to do better for all our children, young people and young adults. We want children with SEND to thrive as members of their communities. All partners give priority to the views and aspirations of children, young people, young adults and their parent carers to enable a culture of mutual support, ownership, continuous growth and development. WCC, the CCG and WPCV have formed a SEND and Inclusion Steering Group together with the SEND and Inclusion Partnership to provide governance by continuously challenging, supporting and improving the quality of our work and our outcomes. This group also has representatives from Mainstream Schools, Special Schools, Health providers and the Community Voluntary Sector (CVS). The Schools Forum within Warwickshire also provides robust challenge to WCC in relation to its efficient use of resources.

Although there are many strengths, senior leaders recognise there are areas for further improvement across the system and welcome the feedback from the inspection to provide further focus to deliver our change plans.

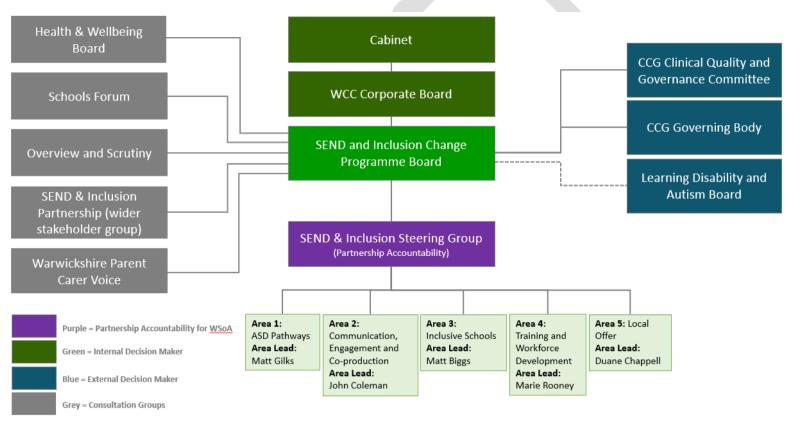

<u>Warwickshire's SEND and Inclusion Strategy</u> sets out the agreed priorities for CYP with SEND. <u>The SEND and Inclusion Change Programme</u> builds on those priorities with four areas of focus:

- Improving the outcomes for our CYP
- Clear, transparent decision making
- Ensuring systems are sustainable
- Securing education, employment and training for young people with SEND aged 16-25

For clarity, it should also be noted that the term 'CYP' refers to children, young people and young adults. CYP with SEND refers to children and young people with Special Educational Needs and/or Disabilities who are supported at either SEN Support or who have an Education Health Care Plan (EHCP). Further terms are included in the glossary.

Section 3 - Arrangements for Working Together

We will make sure the right people are involved in this written statement of action and our improvement plans. This includes senior leaders, Councillors, partners, schools, staff, parents and carers, young people and young adults. Improvements will be delivered through a set of work-streams overseen by a joint SEND and Inclusion Steering Group with partnership accountability for delivering the WSoA and reported to the SEND and Inclusion Change Programme Board. Progress will also be overseen by WCC Corporate Board and Cabinet, and the CCG Governing Body and Clinical Quality and Governance Committee. The structure below shows how communication, delivery and accountability will work.

In addition to this, we will ensure that the voices of CYP are heard and acted upon. We will work with Warwickshire Parent Carer Voice to co-produce frameworks, and we will listen to feedback to judge the effectiveness of our work. We will also monitor our progress in our joint data dashboard and review regularly our Self Evaluation Framework.

Section 4 - Significant Areas of Weakness

The significant areas of weakness identified by Ofsted and CQC are:

- 1. The waiting times for Autism Spectrum Disorder (ASD) assessments, and weaknesses in the support for CYP awaiting assessment and following diagnosis of ASD.
- 2. The fractured relationships with parents and carers and lack of clear communication and co-production at a strategic level.
- 3. The incorrect placement of some CYP with EHC plans in specialist settings, and mainstream school leaders' understanding of why this needs to be addressed.
- 4. The lack of uptake of staff training for mainstream primary and secondary school staff to help them understand and meet the needs of CYP with SEND.
- 5. The quality of the online local offer.

This statement of action describes how the local area will address and improve the above areas.

Note on Terminology: There are many terms used to describe autism. In this document we will use the word **autism** and identity-first terminology ('**autistic individuals'** rather than 'individuals with ASD' or 'individuals with autism') when referring to autistic individuals. This approach is based on research (Autism Journal, 2015) which looked at the preferences of UK autistic community members around language used to describe autism, and is reflected in the national strategy for England (<u>National strategy for autistic children, young-people and adults (2021-26)</u>. Unless otherwise stated, reference to "an autistic individual or individuals" includes children, young people and adults of all ages, across the autism spectrum at all levels of intellectual ability.

RAG Ratings: In the following action plans, we will use the following to rate our progress:

Blue: Completed and embedded; Green: On track, no concerns; Amber: On track, some concerns; Red: No progress, major concerns; Grey: Not due yet

Section 5 - Local Area Response to Concerns

Area 1: The waiting times for Autism assessments, and weaknesses in the support for children and young people awaiting assessment and following diagnosis of Autism

Senior Responsible Officer – Matt Gilks (Director of Joint Commissioning, CWCCG)

Outcomes we will strive for:

- > The waiting times for an autism diagnostic assessment are reduced.
- ➤ Children, young people, young adults and their families awaiting a diagnostic assessment can access a clear and coordinated pathway of support that meets their needs.
- ➤ Children, young people, young adults and their families following diagnosis of autism can access a clear and coordinated pathway of support that meets their needs.

Area 2: The fractured relationships with parents and carers and lack of clear communication and coproduction at a strategic level

Senior Responsible Officer – John Coleman (Assistant Director, Children and Families, WCC)

Outcomes we will strive for:

- > Strengthened relationships with parents and carers to build trust and confidence in the SEND system.
- > Effective approach to communication in place with children, young people and their families.
- ➤ Whole system approach to co-production at a strategic level with children, young people and their families across Education, Health and Social Care.
