Decision maker <i>(please state Cabinet or member or name and title of officer)</i>		Date of Decision
Councillor Heather Timms		18 th February 2022
Relevant Decision <i>(please identify the particular decision that is being called in)</i>		
The decision to increase carparking charges in our country parks		
Reasons for Call-in <i>(please give nature of concerns)</i>		
<p>There was no consultation with members who have country parks in their divisions. (At the bottom of the report it states members – N/A). This is undemocratic as members did not get the opportunity to make their concerns, on behalf of their residents, known to the portfolio holder. There should have been a dialogue and forewarning of any proposals so that divisional members could have had some involvement. As a group we might have come up with a fairer proposal of increasing charges over a period of time. This is an unfair steep increase, over the rate of inflation, which will have an adverse impact on people who use our country parks.</p>		
Office Use Only – To be completed by Democratic Services in consultation with the AD Governance and Policy
