The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Authority or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

# Introduction

## Your key Grant Thornton team members are:

### Avtar Sohal

Key Audit Partner

T 0121 232 5420

E avtar.s.sohal@uk.gt.com

### Jim McLarnon

Senior Manager

T 0121 232 5219

E james.a.mclarnon@uk.gt.com

### Lena Grant-Pearce

Assistant Manager

T 0121 232 5397

E ellena.grant-pearce@uk.gt.com

### Kiran Hussain

Assistant Manager

T 0121 232 5107

E kiran.hussain@uk.gt.com

This paper provides the Audit and Standards Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority and Pension Fund; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Audit and Standards Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications [www.grantthornton.co.uk](http://www.grantthornton.co.uk) ..

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

## Changes in the Engagement team

Members will be aware that following the reduction in number of hours, and subsequent retirement of John Gregory, Ciaran McLaughlin stepped in to take on responsibility for the Key Audit Partner role in 2021. As this was a temporary measure, Avtar Sohal will now be picking up those responsibilities from him on a permanent basis. Avtar has extensive experience in the sector and looks forward to working with the Council and forging strong working relationships with management and those charged with governance as the Council continue to navigate challenging times. See page 4 for a brief CV of Avtar's experience.

# Your new engagement lead

## Engagement Lead – Avtar Sohal, Director (BSc, MSc, CPFA)

Avtar has over 14 years of Public Sector Audit Experience. He is currently the engagement lead on a number of district councils, fire authorities and NHS bodies in the Midlands region and also leads the grant certification work for a redbrick University. His experience in Public Sector Audits has stemmed from working at the Audit Commission, Grant Thornton UK LLP and Ernst and Young LLP. He will bring his experience in to leading the delivery of the external audit at the Council. He will look to regularly meet with the Council officers and members of the audit and ethics committee to give progress on the audit and provide insights on emerging issues as required.

He is also the regional technical lead for Grant Thornton's Public Sector Team in the West Midlands and helps to co-ordinate and delivery client facing workshops on technical issues as they arise. He will bring this knowledge and expertise to help with the audit of the Council.

His overall experience in local government has included him working on a number of Unitary Authorities, County Councils, District Councils, Police Authorities, Fire Authorities and LGPS Pension Funds across the Midlands, delivering both the financial statements audit and VFM conclusions in a timely manner and ensuring that audit quality standards are met.

Avtar is also an experienced local government grant auditor and has lead the delivery on a number of Housing Benefit, Pooling of Capital Receipts, Teachers Pension and Innovate UK audit certifications.

# The auditor's statutory responsibilities

## Opinion on the audited body's financial statements

Our work enables us to give an opinion as to whether the financial statements:

- give a true and fair view of the financial position of the audited body and its expenditure and income; and
- have been prepared properly in accordance with the relevant accounting and reporting framework as set out in legislation, applicable accounting standards and other directions.

Our planning will be undertaken in March and April 2022 and will document our understanding of your key risks, your control environment and inform our testing strategy. This will continue until we begin our final accounts testing in July 2022.

We expect to issue our audit plan summarising our approach to key risks on the audit in May 2022.

We will endeavour to deliver our final accounts audit in line with the December 2022 Council Meeting, as agreed with Management. Members should be aware that guidance issued by Central Government (Department for Levelling Up, Housing and Communities) on 16 December 2021 outlined measures to improve local audit delays. Subject to consultation, the deadline for publishing audited local authority accounts will be extended to 30 November 2022 for the current year, and then subsequently 30 September for five years until 31 March 2028. The proposed deadline for preparation of draft accounts will remain at 31 May each year.

## Work on value-for-money arrangements

Under the 2020 Audit Code of Practice, we are required to undertake sufficient work to satisfy ourselves that the Authority “has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources.”

Our initial risk assessment will build on our understanding of your arrangements, taking into account any findings from previous work on value for money. We will report our risk assessment to you at your May Committee meeting against the following reporting criteria:

- **Financial sustainability:** how the body plans and manages its resources to ensure it can continue to deliver its services;
- **Governance:** how the body ensures that it makes informed decisions and properly manages its risks; and
- **Improving economy, efficiency and effectiveness:** how the body uses information about its costs and performance to improve the way it manages and delivers its services.

Our final commentary in the Auditors' Annual Report will include:

- a summary of our findings on any risks identified during our work;
- our judgements on the adequacy of the Authority's arrangements for each of the three reporting criteria, as set out above;
- any recommendations made to management as a result of our work; and
- a follow up of progress against any recommendations raised in previous audits.

As a result of the ongoing pandemic, and the impact it has had on both preparers and auditors of accounts to complete their work as quickly as would normally be expected, the National Audit Office has updated its guidance to auditors. The extended deadline for the issue of the Auditor's Annual Report is now no more than three months after the date of the opinion on the financial statements. We anticipate issuing our Auditor's Annual Report in December 2022 alongside the financial statements opinion.

# The auditor's statutory responsibilities

## Other areas

### Certification of claims and returns

We certify the Authority's annual Teachers' Pensions return in accordance with procedures agreed with Teachers' Pensions. The work programme for 2020/21 was completed and signed off subsequent to the last Audit and Standards Committee meeting and we expect the certification work the 2021/22 period will begin in October 2022.

### Meetings

We met with Finance Officers in February as part of our periodic liaison meetings and continue to be in discussions with finance staff regarding emerging developments and to ensure the audit process is smooth and effective.

We have agreed a timetable of regular monthly catch up meetings with key officers, which will commence at the beginning of the main audit fieldwork. This dialogue will ensure audit progress is tracked appropriately and facilitate the timely resolution of any issues.

### Fees

During 2017, PSAA awarded contracts for audit for a five year period beginning on 1 April 2018. 2021/22 is the fourth year of that contract. Since that time, there have been a number of developments within the accounting and audit profession. Across all sectors and firms, the Financial Reporting Council (FRC) has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing.

Our work in the Local Government sector in the last few years has highlighted areas where financial reporting, in particular, property, plant and equipment and pensions, needs to improve. There is also an increase in the complexity of Local Government financial transactions and financial reporting. This combined with the FRC requirement that all Local Government audits are at or above the "few improvements needed" (2A) rating means that additional audit work is required.

We continue to review the impact of these changes on both the cost and timing of audits. We will discuss our 2021/22 fee proposal with your s151 Officer including any variations to the Scale Fee set by PSAA Limited, and communicate this to the Audit and Standards Committee.

## Added value

Grant Thornton has a large Public Sector practice and is a key supplier to the market. As a valued audit client, you will receive:

- an annual invitation to our free Financial Reporting Workshop. This will provide an opportunity to work through new accounting standards or reporting requirements prior to the year end pressure with other officers.
- the opportunity to access support from experienced technical colleagues who attend the CIPFA conferences, ICAEW Public Sector Financial Reporting Panel, ICAEW Public Sector Audit Panel as well as other technical forums and boards. This means you will be at the forefront of accounting developments. Through this relationship we also ensure that communication works both ways and feed issues up from our Local Government clients.
- insight from our regular meetings with CIPFA where we discuss emerging developments. We will also raise any areas of concern that you have over policy, procedure, or regulation with your regulators.
- technical and sector updates for the Audit and Standards Committee.

# Audit Deliverables

2021/22 Deliverables	Planned Date	Status
<p><b>Audit Plan</b></p> <p>We are required to issue a detailed audit plan to the Audit and Standards Committee setting out our proposed approach in order to give an opinion on the Authority and Pension Fund's 2021/22 financial statements and the Auditor's Annual Report on the Authority's Value for Money arrangements.</p>	May 2022	Not yet due
<p><b>Audit Findings Report</b></p> <p>The Audit Findings Report will be reported to the September Audit and Standards Committee*.</p>	September 2022	Not yet due
<p><b>Auditors Report</b></p> <p>This includes the opinion on your financial statements.</p>	December 2022	Not yet due
<p><b>Auditor's Annual Report</b></p> <p>This Report communicates the key issues arising from our Value for Money work.</p>	December 2022	Not yet due

\*Dependent upon audit progress, there is also the possibility that the audit findings report will be presented to the November meeting of the Audit and Standards Committee. If this is the case, then a separate progress report will be presented at the September meeting.

2020/21 Audit-related Deliverables	Planned Date	Status
<p><b>Teachers Pensions Scheme – certification</b></p> <p>This is the report we submit to Teachers Pensions based upon the mandated agreed upon procedures we are required to perform.</p>	30 November 2022	Not yet due

# Financial Reporting Council annual report

On 29 October, the Financial Reporting Council (FRC) published its annual report setting out the findings of its review of the work of local auditors. The report summarises the results of the FRC's inspections of twenty audit files for the last financial year. A link to the report is here:

[FRC AQR Major Local Audits October 2021](#)

Grant Thornton are one of seven firms which currently delivers local audit work. Of our 330 local government and NHS audits, 87 are currently defined as 'major audits' which fall within the scope of the AQR. This year, the FRC looked at nine of our audits.

## Our file review results

The FRC reviewed nine of our audits this year. It graded six files (67%) as 'Good' and requiring no more than limited improvements. No files were graded as requiring significant improvement, representing an impressive year-on-year improvement. The FRC described the improvement in our audit quality as an 'encouraging response by the firm to the quality findings reported in the prior year.' Our Value for Money work continues to be delivered to a high standard, with all of the files reviewed requiring no more than limited improvement. We welcome the FRC findings and conclusions which demonstrate the impressive improvement we have made in audit quality over the past year.

The FRC also identified a number of good practices including effective challenge of management's valuer, use of an auditor's expert to assist with the audit of a highly specialised property valuation, and the extent and timing of involvement by the audit partner on the VFM conclusion.

Our "Opinion" results over the past three years are shown in the table below:

Grade	Number 2020/21	Number 2019/20	Number 2018/19
Good with limited improvements (Grade 1 or 2)	6	1	1
Improvements required (Grade 3)	3	5	2
Significant improvements required (Grade 4)	0	0	1
Total	9	6	4

Our "VFM" results over the past two years are shown in the table below. The FRC did not review VFM in 2018/19:

Grade	Number 2020/21	Number 2019/20
Good with limited improvements (Grade 1 or 2)	6	6
Improvements required (Grade 3)	0	0
Significant improvements required (Grade 4)	0	0
Total	6	6

# Financial Reporting Council annual report

## Our continued commitment to Audit quality and continuous improvement

Our work over the past year has been undertaken during the backdrop of COVID-19, when the public sector has faced the huge challenge of providing essential services and helping safeguard the public during the pandemic. Our NHS bodies in particular have been at the forefront of the public health crisis. As auditors we have had to show compassion to NHS staff deeply affected by the crisis, whilst staying focused on the principles of good governance and financial management, things which are more important than ever. We are very proud of the way we have worked effectively with audited bodies, demonstrating empathy in our work whilst still upholding the highest audit quality.

Over the coming year we will make further investments in audit quality including strengthening our quality and technical support functions, and increasing the level of training, support and guidance for our audit teams. We will address the specific improvement recommendations raised by the FRC, including:

- Enhanced training for local auditors on key assumptions within property valuations, and how to demonstrate an increased level of challenge
- Formalising our arrangements for the consideration of complex technical issues by Partner Panels.

As part of our enhanced Value for Money programme, we will focus on identifying the scope for better use of public money, as well as highlighting weaknesses in governance or financial stewardship where we see them.

## Conclusion

Local audit plays a critical role in the way public sector audits and society interact, and it depends on the trust and confidence of all those who rely on it. As a firm we're proud to be doing our part to promote good governance, effective stewardship and appropriate use of public funds.

# Financial Reporting Council annual report (cont.)

## Quality Assurance Department (QAD) Reviews

In addition to the reviews undertaken by the FRC on major local audits, the QAD team from the ICAEW undertake annual reviews of non-major local audits as well as reviews of Foundation Trusts on behalf of NHSE&I.

The QAD reviewed five of our audits this year and graded all of them (100%) as 'Satisfactory / generally acceptable' for both the financial statements and VFM elements of the audit, which is the highest grading.

Grade	Number 2020/21	Number 2020/19	Number 2019/18
Satisfactory / generally acceptable	5	6	2
Improvement required	0	1	0
Significant improvement required	0	0	0
Total	5	7	2

## Our continued commitment to Audit quality and continuous improvement

Our work over the past year has been undertaken during the backdrop of COVID-19, when the public sector has faced the huge challenge of providing essential services and helping safeguard the public during the pandemic. Our NHS bodies in particular have been at the forefront of the public health crisis.

As auditors we have shown compassion to NHS staff deeply affected by the crisis, whilst staying focused on the principles of good governance and financial management, things which are more important than ever. We are very proud of the way we have worked effectively with audited bodies, demonstrating empathy in our work whilst still upholding the highest audit quality.

Over the coming year we will make further investments in audit quality including strengthening our quality and technical support functions, and increasing the level of training, support and guidance for our audit teams. We will address the specific improvement recommendations raised by the FRC, including:

- Enhanced training for local auditors on key assumptions within property valuations, and how to demonstrate an increased level of challenge
- Having formal internal consultations when considering complex technical issues.

As part of our enhanced Value for Money programme, we will focus on identifying the scope for better use of public money, as well as highlighting weaknesses in governance or financial stewardship where we see them.

## Conclusion

Local audit plays a critical role in the way public sector audits and society interact, and it depends on the trust and confidence of all those who rely on it. As a firm we're proud to be doing our part to promote good governance, effective stewardship and appropriate use of public funds.

# Sector Update

Authorities continue to try to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

# Levelling up White Paper – Department for Levelling Up, Communities and Housing (“DLUCH”)

On 2 February the Department for Levelling Up, Communities and Housing (“DLUCH”) published its Levelling Up White Paper.

The paper states “Levelling up requires a focused, long-term plan of action and a clear framework to identify and act upon the drivers of spatial disparity. Evidence from a range of disciplines tells us these drivers can be encapsulated in six “capitals”:

- Physical capital – infrastructure, machines and housing.
- Human capital – the skills, health and experience of the workforce.
- Intangible capital – innovation, ideas and patents.
- Financial capital – resources supporting the financing of companies.
- Social capital – the strength of communities, relationships and trust.
- Institutional capital – local leadership, capacity and capability.”

The paper also states “This new policy regime is based on five mutually reinforcing pillars.” These are set out and explained as:

- 1) The UK Government is setting clear and ambitious medium-term missions to provide consistency and clarity over levelling up policy objectives.
- 2) Central government decision-making will be fundamentally reoriented to align policies with the levelling up agenda and hardwire spatial considerations across Whitehall.

- 3) The UK Government will empower decision-makers in local areas by providing leaders and businesses with the tools they need.
- 4) The UK Government will transform its approach to data and evaluation to improve local decision-making.
- 5) The UK Government will create a new regime to oversee its levelling up missions, establishing a statutory duty to publish an annual report analysing progress and a new external Levelling Up Advisory Council.

[Levelling Up the United Kingdom - GOV.UK](https://www.gov.uk/levelling-up)  
([www.gov.uk](https://www.gov.uk))

# Grant Thornton – reaction to Levelling up White Paper

On 2 February the Department for Levelling Up, Communities and Housing (“DLUCH”) published its Levelling Up White Paper.

Commenting on the release of the government’s Levelling up White Paper plans, Phil Woolley, Head of Public Sector Consulting, Grant Thornton UK LLP, said:

“The publication of today’s White Paper plans is a welcome first step and it is reassuring to see the government recognise the need for systemic changes in order to deliver its central aim of Levelling up. The ‘12 missions’ can be seen as an attempt to consolidate existing elements of government activity behind a singular banner and now provides a clearer picture of the levelling up opportunity.

“Following a decade of successful regional devolution and mayors, the White Paper marks the next stage of the country’s devolution journey. With government now offering a clear framework of devolved powers and accountability, local leaders will need to embrace the opportunity and collaborate across the public and private sector to ensure they negotiate and then deliver the best deal for their communities. Grant Thornton’s Levelling Up Index shows that the economies of the 10 worst performing local authorities in England are on average over five times smaller than their best performing counterparts - highlighting the scale of the challenge ahead.

“To level up, these areas would need to grow their economies by £12billion, increase employment rates by 6 percentage points, create 1,700 new businesses a year and increase average weekly pay by £200. It is too early to determine whether the measures announced today will be sufficient, but it is a start. Success will ultimately depend on the ability and willingness of local and national government to translate these new frameworks into meaningful change in people’s lives.

“The Spending Review offers the next opportunity for government to show its commitment by realigning departmental objectives behind these new goals.”

# Government response to MHCLG Select Committee report on Local Authority financial sustainability & the section 114 regime – MHCLG

Government has published a response to the Housing, Communities & Local Government (HCLG) Committee report on local authority financial sustainability and the section 114 regime, published in July.

The HCLG report states “In recent years, the financial sustainability of local government has faced successive challenges, including increased demand for services, especially social care, changes to the level of funding equalisation between councils and, most recently, the COVID-19 pandemic. In some instances, councils have been in such acute financial trouble that they have approached the Ministry of Housing, Communities and Local Government for financial assistance; three of these—Northamptonshire in 2018, Croydon in late 2020 and Slough in July 2021—issued section 114 notices, essentially declaring they had run out of money. Our inquiry has sought to identify the most serious threats facing local councils’ finances. In light of the various factors we consider in the report, including the somewhat delayed Fairer Funding Review, renewed discussion about property taxes and the need to reform funding for social care, the time is right to consider a more radical review of local government finances—and our report makes various recommendations about how this should be done. We also consider what happened at Croydon—which prompted us to look at the section 114 regime—in the annex to our report.”

The report includes sections on:

- Social Care
- Funding
- COVID-19
- Local authority commercial investment
- Audit and control

The report made 13 recommendations, and the Government response to these was published in October. The response notes “Moving forward, we will work to provide the sector with a sustainable financial footing, enabling it to deliver vital frontline service and support other government priorities. We will also take stock, including of the impact of the pandemic on local authority resources and service pressures, to determine any future reforms.”

The initial report can be found here:

<https://committees.parliament.uk/publications/6777/documents/72117/default/>

Government response can be found here:

# Public Accounts Committee (PAC) – Local auditor reporting on local government in England & government response

The PAC inquiry examined the timeliness of auditor reporting on English local public bodies' financial statements covering 2019-20. The National Audit Office (NAO) report, on which this inquiry is based, found that “delays in the delivery of audit opinions beyond the deadlines for publishing local authority accounts, alongside concerns about audit quality and doubts over audit firms' willingness to continue to audit local public bodies, highlight that the situation needs urgent attention.”

The PAC report found “Without urgent action from government, the audit system for local authorities in England may soon reach breaking point. With approximately £100 billion of local government spending requiring audit each year, the Ministry of Housing, Communities & Local Government (the Department) has become increasingly complacent in its oversight of a local audit market now entirely reliant upon only eight firms, two of which are responsible for up to 70% of local authority audits. This has not been helped by the growing complexity of local authority accounts, with audit firms now asked to carry out more work in each audit, comply with new regulatory demands and adapt to the new multifaceted landscape in which local authorities operate, while also struggling to hire and retain experienced auditors.”

Key conclusions were:

- The marked decline in the timeliness of external audit undermines accountability and hampers effective decision-making.
- There is a pressing risk of market collapse due to an over reliance on a small number of audit firms and significant barriers to entry.
- The commercial attractiveness to audit firms of auditing local authorities has declined.

- The rapidly diminishing pool of suitably qualified and experienced staff increases the risks to the timely completion of quality audits.
- We are not convinced that the recently announced new local audit arrangements will meet the pressing need for effective system leadership now.
- Unless local authority accounts are useful, relevant and understandable they will not aid accountability.

The report made recommendations in each of these areas. The government response was published on 28 October.

The PAC report and response can be found here:

Eleventh Report of Session 2021–22

# Emergency consultation on 2021/22 reporting requirements – CIPFA

On 4 February CIPFA released an emergency four week consultation on time limited changes to the Code to help alleviate delays to the publication of audited financial statements. This explores two possible changes that might be made as an update to the 2021/22 code and to the agreed position in the 2022/23 code.

The decision to launch the consultation came after the Department for Levelling up, Housing and Communities (DLUHC) asked CIPFA to consider amendments to the Code of Practice on Local Authority Accounting, after just 9% of local audits for 2020-21 were published on time.

After considering a wide range of options CIPFA LASAAC decided to explore two approaches:

- 1) An adaptation to the code to allow local authorities to pause professional valuations for operational property, plant and equipment for a period of up to two years (though the initial proposal is for the 2021/22 financial year); this approach also explores the use of an index to be used to increase or reduce that valuation
- 2) Deferring the implementation of IFRS 16 Leases for a further year and reversing the planned changes to the 2022/23 code to implement that standard.

CIPFA Chief Executive Rob Whiteman said: “DLUHC is understandably concerned about this growing crisis – and CIPFA shares this concern. We are committed to supporting CIPFA LASAAC in its exploration of the options that may improve timeliness issues, without significantly impacting accountability. But this is a difficult issue, and we need feedback from stakeholders on whether and how this might work.”

CIPFA said that the changes do not represent the best form of financial reporting for local authorities, but are a “temporary expedient to help improve an unacceptable situation”.

The consultation closed on Thursday 3 March. Any updates to the Code are subject to oversight by the Financial Reporting Advisory Board before implementation.

The consultation can be found here:

<https://www.cipfa.org/policy-and-guidance/consultations/emergency-proposals-for-update-of-202122-and-202223-codes>

## Summary of the Grant Thornton response

### Property, Plant & Equipment Valuations

In principle we are very supportive of changes to the measurement basis for operational property, plant and equipment. However our view is that it is too late to effect change for the 2021/22 reporting cycle. Our response highlighted a number of difficulties with this approach, including the risk that some assets then fall outside of the requirement to be revalued every five years as a minimum, and the challenge of consistent application of indexation. The proposed amendments to the Code do not appear to override the requirement that the carrying amount does not differ materially from that which would be determined using the current value at the end of the reporting period, which stems from IAS 16:31. If the financial reporting requirements are not sufficiently tightly defined and auditors therefore cannot obtain sufficient and appropriate audit evidence to support this requirement, there is a risk that audit opinions could be modified as a result.

### Deferral of IFRS 16 - Leases

The removal of the requirement for disclosure (based upon IAS 8) in 2021/22 is not likely to have a significant impact in terms of freeing up auditor time and audit work covering the disclosures in 2022/23 would then be required in the 2022/23 audit. Savings to preparer time and effort would depend on what progress has already been made in preparing for the imminent implementation of IFRS 16.

# Prudential Code and Treasury Management Code – CIPFA

On 20 December CIPFA published the new Prudential Code for Capital Finance in Local Authorities (Prudential Code) and Treasury Management in the Public Services Code of Practice and Cross-Sectoral Guidance Notes (the Treasury Management Code).

CIPFA commented “These two statutory and professional codes are important regulatory elements of the capital finance framework in which local authorities operate. Local authorities are required by regulation to ‘have regard to’ their provisions. These two codes have been published a principles-based consultation from February to April, which was followed by a second consultation on the detailed changes to the code from September to mid-November.

The updated Prudential Code includes some substantive changes. Most notably, the provisions in Code which present the approach to borrowing in advance of need in order to profit from additional sums borrowed have been strengthened. Additionally, the relevant parts of Code have augmented to be clear that borrowing for debt-for-yield investment is not permissible under the Prudential Code. This recognises that commercial activity is part of regeneration but underlines that such transactions do not include debt-for-yield as the primary purpose of the investment or represent an unnecessary risk to public funds.”

The updated Prudential Code removes the "advance of need" terminology and emphasises the legislative basis for borrowing, namely that a local authority can borrow and invest for any legislative function and/or for the prudent management of their financial affairs.

The examples listed in the Code of legitimate prudential borrowing are:

- Financing capital expenditure primarily related to the delivery of a local authority’s functions;
- Temporary management of cash flow within the context of a balanced budget;
- Securing affordability by removing exposure to future interest rate rises; or
- Refinancing current borrowing, including replacing internal borrowing, to manage risk or reflect changing cash flow circumstances.

# 2020/21 audited accounts – Public Sector Audit Appointments

Public Sector Audit Appointments (PSAA) has reported that only 9% of local government audits for 2020/21 were completed by the end of September. This is a sharp contraction on the 45% filed on time for 2019-20, and is the third successive year where the number of accounts produced on schedule has reduced.

PSAA state “The challenges posed by COVID-19 have contributed to the current position. However, a range of further pressures documented in the Redmond Report are also continuing to impact performance. In particular there is a shortage of auditors with the knowledge and experience to deliver the required higher quality audits of statements of accounts, which increasingly reflect complex structures and transactions, within the timeframe expected. The growing backlog of audits is also a concern, with 70 of the 2019/20 audits still incomplete.”

Grant Thornton commented “Audit quality remains a priority for our firm and we continue to work hard with local audit stakeholders to ensure the delivery of high quality audits in as timely a fashion as is practicable. Unfortunately, much of this work will be delivered past the 30 September target date, owing to ongoing constraints posed by the COVID-19 pandemic and the backlog this has caused. We remain committed to public sector audit and are now focused on delivering the majority of our local audits by December 2021.”

# 2023-24 audit appointments – Public Sector Audit Appointments

Following a consultation exercise Public Sector Audit Appointments (PSAA) has invited all principal local government including police and fire bodies to become opted-in authorities. At the same time it published its procurement strategy and prospectus for the national scheme from April 2023. Both documents have evolved in response to the feedback provided by the market engagement exercise and consultation on the draft prospectus undertaken during June 2021.

PSAA state “Our primary aim is to secure the delivery of an audit service of the required quality for every opted-in body at a realistic market price and to support the drive towards a long term competitive and more sustainable market for local public audit services.

The objectives of the procurement are to maximise value for local public bodies by:

- securing the delivery of independent audit services of the required quality;
- awarding long term contracts to a sufficient number of firms to enable the deployment of an appropriately qualified auditing team to every participating body;
- encouraging existing suppliers to remain active participants in local audit and creating opportunities for new suppliers to enter the market;
- encouraging audit suppliers to submit prices which are realistic in the context of the current market;
- enabling auditor appointments which facilitate the efficient use of audit resources;
- supporting and contributing to the efforts of audited bodies and auditors to improve the timeliness of audit opinion delivery; and

- establishing arrangements that are able to evolve in response to changes to the local audit framework.

PSAA set out the proposed timeline, which anticipates contracts being awarded in August 2022.

# Guide to support Value for Money (VfM) analysis for public managers – CIPFA

The Chartered Institute of Public Finance and Accountancy (CIPFA) has published this guide which complements a VfM toolkit which has been published separately. Both were developed under a collaborative project between Government Outcomes Lab (GO Lab) and CIPFA.

CIPFA state “The guide is aimed at public managers planning to assess Value for Money (VfM) of outcomes-based contract (OBC) programmes, or any other type of programme with an outcome-focus, using prospective information. This involves assessing economic validity of the programme with respect to ‘doing nothing’ as well as the closest comparator.”

CIPFA explain that the guide:

- Describes what VfM represents in public provision of social services with a special focus on outcome-based contracts (OBCs). In particular the guide emphasises the link between economy and effectiveness criteria.
- Promotes thinking about longer-term effects of interventions, such as outcomes and impact, at the design/ planning stage of programmes. This means that having a good appreciation for efficiency is helpful but not necessary, especially when outcomes are both identifiable and measurable.
- Explain how it could be used to appraise public programmes with respect to anticipated costs and value of them using prospective information.

The guide is available to CIPFA members through the website.

# Good practice in annual reporting – NAO

The National Audit Office (NAO) has published this guide which sets out good practice principles for annual reporting with examples from public sector organisations

The NAO comment that the guide sets out “good-practice principles that we believe underpin good annual reporting. These principles are: Supporting Accountability; Transparency; Accessibility; and the need for the report to be Understandable.”

The NAO further comment “The best annual reports we have seen use these principles to tell the “story” of the organisation. It is important that stakeholders, including the public and Parliament, are able to hold an organisation to account. To do this effectively, stakeholders need to properly understand the organisation’s strategy, key risks that might get in the way of delivering this strategy and the effectiveness of their management, and the amount of taxpayers’ money that has been spent to deliver the outcomes the organisation seeks to achieve.”

The guide draws on examples of good practice from within each of the six sections of an Annual Report:

- Strategy
- Risk
- Operations
- Governance
- Measures of success
- Financial performance
- External factors

Although the guide does not include any local authority examples, those included, and the underlying principles, are equally relevant to all public facing organisations.

The guide can be found here:

# Climate change risk: A good practice guide for Audit and Risk Assurance Committees – NAO

The National Audit Office (NAO) has published this guide to help Audit Committees recognise how climate change risks could manifest themselves and support them in challenging senior management on their approach to managing climate change risks.

The NAO comment “Audit and Risk Assurance Committees (ARACs) play a key role in supporting and advising the board and Accounting Officer in their responsibilities over risk management.

This guide will help ARACs recognise how climate change risks could manifest themselves and support them in challenging senior management on their approach to managing climate change risks. We have outlined specific reporting requirements that currently apply.

Our primary audience is ARAC chairs of bodies that we audit, but the principles of the guide will be relevant for bodies across the wider public sector. It promotes good practice and should not be viewed as mandatory guidance.

Climate change and the nature of its impacts on organisations globally is changing rapidly. This guide acknowledges the evolving nature of climate change and its associated risks and opportunities and will be refreshed in the future to reflect those changes.”

The guide includes sections on “How to support and challenge management”. This includes sections on governance and leadership; collaboration; risk identification and assessment; risk treatment, monitoring and reporting and continual improvement. There is also a “Complete list of questions that Audit and Risk Assurance Committees can ask” for each of these areas. The guide also includes “Key guidance and good practice materials” with links.

The report can be found here:

# Local government and net zero in England – NAO

The National Audit Office (NAO) report responds to a request from the Environmental Audit Committee to examine local government and net zero. It considers how effectively central government and local authorities in England are collaborating on net zero, in particular to:

- clarify the role of local authorities in contributing to the UK’s statutory net zero target; and
- ensure local authorities have the right resources and skills for net zero.

The NAO comment “While the exact scale and nature of local authorities’ roles and responsibilities in reaching the UK’s national net zero target are to be decided, it is already clear that they have an important part to play, as a result of the sector’s powers and responsibilities for waste, local transport and social housing, and through their influence in local communities. Government departments have supported local authority work related to net zero through targeted support and funding. However, there are serious weaknesses in central government’s approach to working with local authorities on decarbonisation, stemming from a lack of clarity over local authorities’ overall roles, piecemeal funding, and diffuse accountabilities. This hampers local authorities’ ability to plan effectively for the long-term, build skills and capacity, and prioritise effort. It creates significant risks to value for money as spending is likely to increase quickly.

MHCLG, BEIS and other departments recognise these challenges and are taking steps to improve their approach. Their progress has understandably been slowed by the COVID-19 pandemic, but there is now great urgency to the development of a more coherent approach.”

Key findings include:

- Central government has not yet developed with local authorities any overall expectations about their roles in achieving the national net zero target.
- There is little consistency in local authorities’ reporting on net zero, which makes it difficult to get an overall picture of what local authorities have achieved.
- Neither MHCLG nor HM Treasury has assessed the totality of funding that central government provides to local government that is linked with net zero.

The report can be found here:

# Cyber and information security: Good practice guide – NAO

The National Audit Office (NAO) has published this guide to help Audit Committees scrutinise cyber security arrangements. To aid them, this guidance complements government advice by setting out high-level questions and issues for audit committees to consider.

The NAO state “Audit committees should gain the appropriate assurance for the critical management and control of cyber security and information risk.

Cyber security is the activity required to protect an organisation’s data, devices, networks and software from unintended or unauthorised access, change or destruction via the internet or other communications systems or technologies. Effective cyber security relies on people and management of processes as well as technical controls.

Our guide supports audit committees to work through this complexity, being able to understand and question the management of cyber security and information risk.

It takes into account several changes which affect the way in which we interact with and manage our information and can drive increased risk. These include changes to the way we work and live due to the COVID-19 pandemic and the ongoing demand to digitise and move to cloud-based services.

The strategic advice, guidance and support provided by government has also been updated to keep pace with these changes, detailing the impact and risks on the management of cyber security and information risk.

The guide provides a checklist of questions and issues covering:

- The overall approach to cyber security and risk management
- Capability needed to manage cyber security
- Specific aspects, such as information risk management, engagement and training, asset management, architecture and configuration, vulnerability management, identity and access management, data security, logging and monitoring and incident management.”

The report can be found here:
