

1. Adult Social Care OSC Progress on the Integrated Delivery Plan Year End

1.1 Key Insights for Year End 2022/23

Of the remaining 192 actions within the Integrated Delivery Plan, 30 are attributable to the Adult Social Care OSC. There is positive progress within this Quarter with 80% of activities being on track to achieve their objectives within the set timeframes. Twenty percent of activity closed this Quarter. As a result there are no exceptions to report at this time.

Completed activity:

The following activity has been completed this Quarter;

- **Undertake a review of service provision, housing support and embed a revised referral approach for Short Term Vulnerable Adults.**
The referral approach has been reviewed and referrals can now be completed via the Customer Contact Centre and relevant operational team. The retender of this service will now align with the recommissioning of Housing Related Support Offer.
- **Maintain an effective local public health response to Covid19 in line with the Local Outbreak Management Plan.**
The duty desk function has now reverted to a general health protection function which has the ability to respond to enquiries associated with Covid. Additional capacity to staff a Covid duty desk has now ended.
- **Work with the ethnically diverse community (including those coming into Warwickshire) to mitigate the elevated risk of the Covid-19 mortality and morbidity experienced by this community including: Our Connecting Communities Support Officers**

working directly with community groups to improve health engagement, health communication and understanding the barriers to accessing health interventions.

Covid-19 funded Connecting Communities work has now concluded, and fixed term contracts around engagement have come to an end. Public Health will continue to work with Communities & Partnerships, Communications, Equip and other partners on any Covid-19 messaging required.

- **Work with the ethnically diverse community (including those coming into Warwickshire) to mitigate the elevated risk of the Covid-19 mortality and morbidity experienced by this community including: Facilitating a “Health Equity Group” with community residents and representatives to identify ways of closing the gap on health outcomes and address the health inequalities agenda.**

The Health Equity Group pilot programme completed and was evaluated. Overall there was a low take-up and engagement in the group of people representing those communities which find public services hard to access. Future approaches to a group such as this would require a rethink to ensure they achieved meaningful engagement with those from whom we can learn the most.

- **Establish the strategic role of Extra Care Housing and Specialised Supported Housing in the Council’s wider strategies for housing with support and its Adult Social Care Act duties to include: Reviewing the impact of the Extra Care Housing (ECH) and Specialised Supported Housing (SSH/SHAD) programme to date and plan/commence Phase 2.**

This has been presented to Housing with Care Board.
