### 2024-25 National Funding Formula and Budget Setting Timetable

This report relates to all members of Schools Forum and is for information and comment.

#### Recommendations

Schools Forum is asked to:

- Note the timetable for agreeing allocations for DSG funded services for 2024-25 as set out in Appendix A.

#### 1. Purpose of the Report

- 1.1. The purpose of the report is to outline for the Schools Forum the planned timetable for approving the use of Dedicated Schools Grant in Warwickshire for 2024-25. Note that the DfE have not released all required information for 2024-25 at the time of drafting the report and as such the proposed timetable is subject to change.
- 1.2. If any information is released which suggests a revised approach is needed prior to the January meeting of the Schools Forum a note and revised timetable will be circulated to Forum members.

#### 2. NFF Consultations

##### 2021 Consultation

- 2.1. During the summer of 2021, the ESFA conducted a consultation on “Fair schools funding for all: completing our reforms to the National Funding Formula”. This focused on the principles of moving to a direct formula and following consultation feedback the government published its response which confirmed their commitment to the direct NFF and encouraged Local Authorities to move to the ‘hard’ National Funding Formula as quickly as possible.

- 2.2. Schools Forum members will be aware that Schools Forum and Warwickshire County Council both agreed to move to the 'hard' National Formula Funding in January 2018, subject to affordability within the school block DSG.

## **2022 Consultation**

- 2.3. During the summer of 2022, the ESFA has conducted a further consultation on: "Implementing the Direct National Funding Formula". This focused further on the detail of the implementation of the direct NFF, and also sets out proposals to continue to have flexibility within the funding system to transfer funding from the school block to the high needs block, subject to appropriate approvals.
- 2.4. The consultation proposed a short list of options on how adjustments could be made to school budgets to enable a transfer:
- A percentage reduction in all mainstream schools' NFF allocation.
  - A percentage reduction in the NFF funding that mainstream schools attract through the basic entitlement factor (rather than additional needs factors) – this would be of relative benefit to schools with high proportions of pupils with additional needs.
  - A percentage reduction in the NFF funding that schools attract through additional needs factors.
- 2.5. It should be noted that our estimated funding of Primary and Secondary Units of Funding (PUFS and SUFs) suggest that we should be able to replicate the 'hard' National Funding Formula in 2024-25.
- 2.6. However, like 2023-24 we do not currently anticipate either reserve balances or a school block surplus to be available to fund a transfer of up to 0.5% from the school block DSG to the high needs block, although this will be subject to the financial implications of the October 2022 census data. Therefore, if approved, it is likely that a transfer of up to 0.5% would have an impact on 2024-25 school budgets. There is another report on today's agenda which provides an update to the DSG Recovery Plan and how previous 0.5% transfers have been utilised and the impact they have had.
