

1. Adult Social Care OSC Quarterly Performance Report Quarter 2

1.1 Detailed measure-by-measure performance reporting is accessible through the [Performance Portal](#).

1.2 The three strategic priorities set out in the Council Plan 2022 - 2027 are delivered through seven Areas of Focus. In addition to these, there are three further areas to support the Council to be known as 'a Great Council and Partner'. These are detailed in the table below alongside the number of KBMs that will be used to assess delivery, and the number being reported at Year End.

Area of Focus	No. of KBMs	No. of KBMs available for reporting this Quarter
Create vibrant places with safe and inclusive communities	8	8
Deliver major infrastructure, digital connectivity and major transport options	17	14
Promote inclusive, sustainable economic growth, successful business, good quality jobs and future skills	9	8
Tackle climate change, promote biodiversity and deliver on our commitment to Net Zero	7	4
Deliver our Child Friendly Warwickshire strategy - Happy, healthy, safe children	7	6
Through education, improve life opportunities for children, young people and those with special educational needs and disabilities	21	17
Support people to live healthy, happy, and independent lives and work with partners to reduce health inequalities	21	19
A Great Council and Partner	No. of KBMs	No. of KBMs available for reporting this Quarter
Harnessing community power	3	3
Our people and the way we work	8	8
Using our data and digital solutions to improve service delivery	4	4

1.3 **Key Insights for Quarter 2 2023/4**

There are 18 KBMs in total that are in the remit of this Committee. Chart 1 details the reported status of the 17 KBMs which are being reported at this Quarter. One other measure is new to the Performance Management Framework and a mechanism for accurate data collection is currently being investigated; this measure will be reported on later in the performance year.

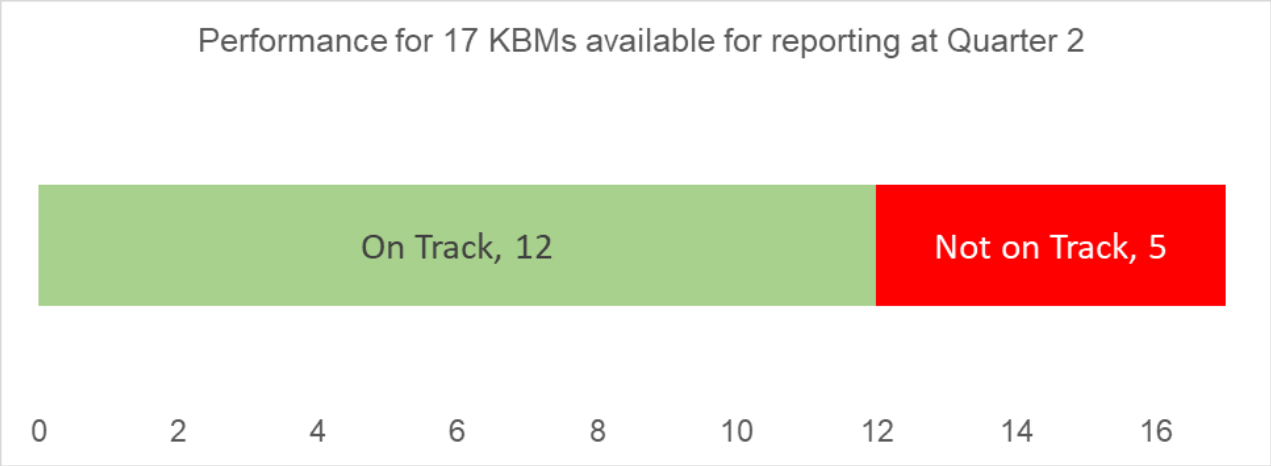

Chart 1

Chart 2 details the overall Direction of Travel, where trend data is available, assessing whether the performance has been improving or declining.

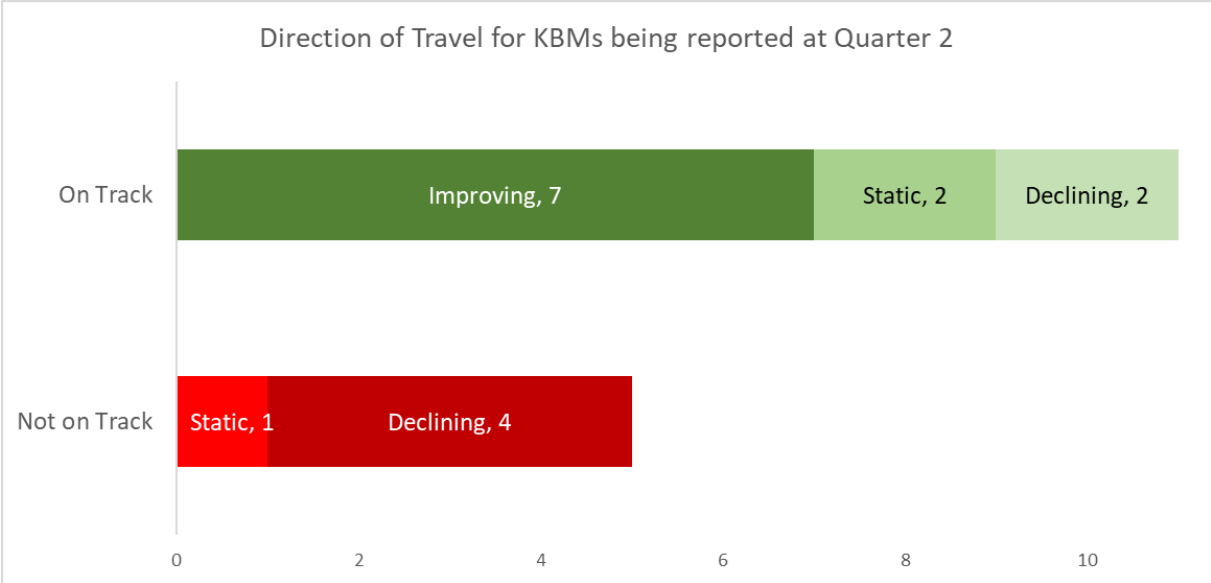

Chart 2

Chart 3 details the projected performance based on the Service forecast of the 17 reportable KBMs at the next Quarter.

Explanatory Notes on Summary Tables

The following sections provide an overview of current performance by Area of Focus. The measure summary tables are a representation of the tables in the full Committee report on Power BI and are interactive. Please note:

- data is being added into the system as it becomes available so new information may be in the reports since the writing of this Quarterly position report;
- measure names in the summary tables and where highlighted are all links to take the reader directly to the measure report page in Power BI which provides full detail on the measure including charted data, performance narrative, improvement activity, trends and targets if applicable;
- a measure status is included based on performance either against the target and polarity of measure or where there is no target on improving/ declining performance;
- Services provide a forecast of where performance is heading over the next reporting period, this is informed by local knowledge, improvement activity and trend information;
- where the measure status or projection is Not Applicable, this is due to exceptional circumstances regarding the measure such as it is setting a baseline this year, the Power BI report will provide the reason by measure;
- the Latest Figure column represents the most current data available including last quarter, previous year or longer if data is lagged, full details are on Power BI report;

- not all measures have targets and the approach now is to have improving performance and targets where appropriate;
- Direction of Travel is an indication of whether performance is improving based on trend data where available; and,
- as the framework is more responsive there are annual or termly measures included on the tables with no reported data, this will be added as the relevant data becomes available e.g. attainment data from November.

* Please note that this figure accounts for only two out of the three months in the Quarter. A full and final figure will be updated in Power BI once available.

At Quarter 2 performance within this Area of Focus is within expected levels and most measures (12 out of 17 being reported) are On Track and forecast to remain On Track with either static or improved performance at the next reporting period. This is an almost identical position to Quarter 1, with all measures that were On Track at Quarter 1 remaining On Track at Quarter 2. One additional measure has moved to On Track this Quarter; % of people with long term support who have had an assessment or review in the last 12 months. Despite increased demand, this measure has been steadily improving since the start of the performance year. For the 5 measures that are Not On Track at Quarter 2, 3 are forecasting static performance and 1 is forecast to improve over the next Quarter. The No. of people supported in residential or nursing care: over 65 has been declining to date, and is set to continue to decline further due to an overall increased demand for residential and nursing placements for older people.

Area of good progress as despite increases in demand in this area, performance consistently remains high:

- No. of carer assessments and reviews completed
- No. of people awaiting a domiciliary care package to be commissioned at the end of the month
- No. of people supported to live independently through the provision of social care equipment

- % of people with long term support who have had an assessment or review in the last 12 months

Improvement activity as experiencing increased demand for older people, with a reducing trend in performance:

- % of people open to Adult Social Care with eligible needs living in the community with support over the age of 65
- No. of people supported in residential or nursing care: over 65
