

Appendix 3: Proposal to increase capacity and establish specialist resourced provision at Shottery St Andrew’s CE Primary School – Overview of Consultation Responses

Reasons In Agreement with Proposal	% of respondents for proposal	WCC response
The school is struggling with capacity and is too small with limited facilities to provide an adequate teaching environment for the pupils	38%	Proposal aims to increase capacity
Current building is in very poor condition	15%	Existing building is maintained to ensure health and safety of pupils. New building will provide improved learning environment
More SEND provision needed in Warwickshire	8%	Proposed to establish a specialist resourced provision
Make sure original building is retained	8%	Building is owned by Church of England Diocese. Options for existing building will be considered in discussion with the Diocese
Need to improve facilities for local people as a result of the housing development	8%	Proposal aims to provide improved facilities, included a nursery, for the local area
Is one form entry sufficient	8%	The school will be built as two form entry. The school will gradually grow to operate as one form entry and expand when there is a requirement
Reasons Against Proposal	% of respondents against proposal	WCC response
Retain the small school ethos for those children that need it. Children with learning needs will	29%	The school will continue to create a nurturing, supportive environment. The pupil numbers will grow gradually and the establishment of a specialist resourced provision will bring additional SEND expertise into the school.

struggle in a bigger school		
There is no need for things to change	14%	Existing building no longer able to adequately meet pupil's needs
Community/heritage of the school will be lost	14%	Existing building no longer able to adequately meet pupil's needs
Understand the need to replace the school building but School does not need to be two forms of entry (one form entry would be sufficient)– too many places will have a negative impact on other primary schools in the town	29%	The school is being built as 2 forms of entry to provide future additional capacity as proposed housing builds out in the medium to long term. The school will be growing gradually to one form entry (210 pupils). The SRP will be using some of the additional space available.
Reasons neither agree/disagree with Proposal	% of respondents who neither agree/disagree	WCC response
Retain the small school ethos for those children that need it.	100%	The school will continue to create a nurturing, supportive environment.
Hope it remains a church school	100%	The designation of the school will not change
