

Better Care Fund 2022-23 End of Year Template

6. Year-End Feedback

The purpose of this survey is to provide an opportunity for local areas to consider and give feedback on the impact of the BCF. There is a total of 5 questions. These are set out below.

Selected Health and Wellbeing Board:

Warwickshire

Part 1: Delivery of the Better Care Fund

Please use the below form to indicate to what extent you agree with the following statements and then detail any further supporting information in the corresponding comment boxes.

Statement:	Response:	Comments: Please detail any further supporting information for each response
1. The overall delivery of the BCF has improved joint working between health and social care in our locality	Strongly Agree	The BCF programme and resource remains a priority for our Integrated Care System and is a continued platform for us to work collectively as a system, including avoiding admissions and supporting safe discharge. We have undertaken a review of our BCF and IBCF commitments jointly in 2022/23.
2. Our BCF schemes were implemented as planned in 2022-23	Strongly Agree	We have implemented our plans and undertaken a joint review focused on our IBCF commitments during 2022/23.
3. The delivery of our BCF plan in 2022-23 had a positive impact on the integration of health and social care in our locality	Strongly Agree	A key component of the Coventry and Warwickshire ICS, our Warwickshire Care Collaborative consultative forum is now shaping decisions including the BCF. The BCF programme and supporting resources continue to be an enabler for effective system working at pace and place particularly around Hospital Discharge.

Part 2: Successes and Challenges

Please select two Enablers from the SCIE Logic model which you have observed demonstrable success in progressing and two Enablers which you have experienced a relatively greater degree of challenge in progressing.

Please provide a brief description alongside.

4. Outline two key successes observed toward driving the enablers for integration (expressed in SCIE's logical model) in 2022-23	SCIE Logic Model Enablers, Response category:	Response - Please detail your greatest successes
Success 1	6. Good quality and sustainable provider market that can meet demand	We worked transparently and collaboratively with our provider market and with Coventry City Council, the Coventry and Warwickshire ICB and West Midlands ADASS to conduct our fair cost of care exercise and to develop our market sustainability plan.
Success 2	6. Good quality and sustainable provider market that can meet demand	We have continued to develop and strengthen our discharge to assess and homefirst approach. Our strong health and care partnerships across commissioning and delivery have contributed to Warwickshire being selected as one of 6 national discharge frontrunners with a focus on intermediate care. Consequently, we have been busy developing our new community recovery service offer for Warwickshire residents being discharged from hospital who need support between January and March 23 to enable go live in April 23.
5. Outline two key challenges observed toward driving the enablers for integration (expressed in SCIE's logical model) in 2022-23	SCIE Logic Model Enablers, Response category:	Response - Please detail your greatest challenges

Checklist

Complete:

Yes

Yes

Yes

Yes

Yes

Challenge 1	2. Strong, system-wide governance and systems leadership	While responding and taking action to mitigate continued demand on health and care services, winter pressures and strike action our ability to progress delegation of decision making and resource to place based collaboratives at pace has been impacted. As an ICS we have a clear plan for care collaborative development to deliver during 23/24.
Challenge 2	1. Local contextual factors (e.g. financial health, funding arrangements, demographics, urban vs rural factors)	The uncertainty and lateness of hospital discharge funding being allocated during 2022/23 impacted on our ability to effectively plan the mobilisation of additional capacity. There has also been a focus on resource to create additional bedded care that is mis-aligned with our home first focus.

Footnotes:

Question 4 and 5 are should be assigned to one of the following categories:

1. Local contextual factors (e.g. financial health, funding arrangements, demographics, urban vs rural factors)
 2. Strong, system-wide governance and systems leadership
 3. Integrated electronic records and sharing across the system with service users
 4. Empowering users to have choice and control through an asset based approach, shared decision making and co-production
 5. Integrated workforce: joint approach to training and upskilling of workforce
 6. Good quality and sustainable provider market that can meet demand
 7. Joined-up regulatory approach
 8. Pooled or aligned resources
 9. Joint commissioning of health and social care
